VICTORIA, B. C., WEDNESDAY, MAY 6, 1914

NO. 106

Mediation Proceedings at Niagara Falls to Continue Without Carranza

Conflict for Possession of Tampico Is Next Battle of Mexican Civil War—Huerta Threatened From South by Zapata's Rebels Gradually Grows Weaker

Washington, May 6.—The South American mediators, who are seeking an adjustment of the Mexican trouble were perfecting plans to-day for removal of the conference to Niagara Falls, Canada. Telegrams were sent to a leading hotel there, now closed, asking if its opening would be advanced, so as to accommodate them. If this is arranged the headquarters will be established there; otherwise at another hotel or private cottage, for which negotiations are under way.

After a short session with Secretary Bryan, one of the mediators announced that they had definitely decided to proceed without Carranza. The possibility that the attitude of the chief of the constitutionalists was merely temporary was considered doubtful by the mediators.

Sessions Will Open in Canada May 18.

The mediators will leave here Thursday, May 14, to arrange preliminaries for their opening sessions on the following Monday, May 18. The party, including secretaries and other officials, will number about fifteen, not including the United States and Huerta delegates and those of Carranza, should he finally come into the deliberations.

The envoys continued their sessions to-day, expecting to advance on various branches of the work, pending the opening of the conference at Niagara Falls. Secretary Lane was an early caller at the Argentine legation, where the negotiations are proceeding. He would say nothing of his visit, but it was recalled that the president had consulted him and Secretary Bryan on phases of the mediation and the names of American delegates. It was authoritatively stated that reports that the mediators were trying to get Carranza to reconsider his attitude and come into the conference were not correct. Their position is that if Carranza comes back voluntarily, well and good; they will be glad to have the scope of mediation thus enlarged.

Four dispatches were received from Vera Cruz by the war and navy departments, but General Funston earlier in the day had formally been authorized to extend his lines about Vera Cruz as far as he deemed it necessary to afford proper protection to the city. It was explained that changes in the placing of the American troops would not include any movement that could be considered as an advance from Vera Cruz.

General Funston reported that he had no definite information regarding concentration of Mexican forces except movements made to defend the railroad lines leading to Mexico City. Persistent reports from Tampico of preparations for a decisive conflict between the constitutionalists and federalists attracted attention of the American officers here and at Vera Cruz and reports from Mexico City continue to pour in from many sources that Huerta's position is growing weaker.

In diplomatic circles, dispatches have been received stating that fear of an attack on Mexico City by Zapata's forces causes considerable alarm. Huerta's hold on his soldiers, dispatches state, is weakening and possibility of opposition to the Zapata movement is decreasing.

Rear-Admiral Howard reported to-day from the west coast of Mexico that relations with the Mexican authorities are more cordial than would be expected under the conditions. All ships of the American fleet, he said, had been ordered to avoid hostile acts and jeopardizing lives.

A late dispatch from General Funston was that food is not getting into Vera Cruz from the interior of Mexico, but that it is being brought from shore villages and towns from the north and from Tejar, on the south.

FIRST TRAVELLERS IN ARE FOLLOWING ICE

Yukon's First 1914 Cleanup Now Being Made by Gold Miners.

Dawson, Y. T., May 6.—Yukon navigation is expected to open between Dawson and Lake Lebarge within ten days. The river is already open from Lower Lebarge to a point fifteen miles north of Hootalinqua. Small boats are following the ice with the first travellers in by water.

Overland stages are handling mail through to Dawson with six horse Concord coaches, over the government highway, pending the sailing of steamers.

The absorption of the Northern Navigation fleet by the White Pass is expected to divert more traffic this way from the St. Michael route this year.

The first gold cleanups of the year are now being made, and there will be shipments ready for the boats as soon as the ice clears.

SUICIDES WHILE DESPONDENT.

Ellensburg, Wash., May 6.—Mrs. Anna Brown, formerly of Spokane, committed suicide yesterday by jumping into the Yaluma river from a bridge at Cle Elum in sight of 100 passengers on Northern Pacific train No. 4. She was despondent.

EMILIANO ZAPATA

Leader of southern rebels who is becoming important factor against Huerta in Mexico.

VILLA SENDS TROOPS TO MONTEREY BASE

Torreon, May 6.—A detachment of Villa's troops stationed here entrained to-day for Monterey, which will be the base of operations in the constitutionalist campaign against San Luis Potosi and Saitillo. The troops which left to-day will detrain at Hypolito, whence they must march overland to Monterey.

El Paso, Tex., May 6.—Military officers and customs inspectors are enforcing the embargo on arms and ammunition along the border have been compelled to install female inspectors at all crossings near here to check the trickle of cartridges across the line. Closely drawn, shawls and mantillas of the feminine adherents of Villa and Carranza, it is said, have covered enough cartridges to fill many a bandolier. All women crossing the international bridges into Mexico now are carefully searched.

THOWLIS PICKS CHICAGO WORSE THAN MANCHESTER

While Others Talked of Montreal Britisher Found Toronto Most to His Liking.

Manchester, Eng., May 6.—Councillor Thowlis, chairman of the police commission, who with Chief Constable Peacock returned yesterday from a tour of Canada and the United States, declared that the city which most impressed him was Toronto. "Coming back on the boat," says Mr. Thowlis, "we heard several discussions about Montreal's merits, but I like Toronto best."

"The people who say nasty things about Manchester should see Chicago," he added.

BELGIUM WILL DISPOSE OF CONGO FREE STATE

France Has First Right to Purchase Territory Where Rubber is Obtained.

Paris, May 6.—Because of the great cost that is not involved in its maintenance, the Congo Free State is to be sold by the Belgian government, according to private advices that have reached this city.

It is regarded here as certain that France will take advantage of the right of priority given her in the recent agreement made with Great Britain and Germany, and will add the African territory to its colonial possessions.

The atrocities perpetrated on the natives to compel them to collect the rubber to provide King Leopold with the fabulous wealth he wasted upon ballet dancers formed a scandal that stirred the entire civilized world a few years ago.

SUFFRAGE BILL REJECTED

London, May 6.—The House of Lords to-day rejected the woman's suffrage bill by a vote of 104 to 69.

STRIKERS RESPONSIBLE.

Boulder, Colo., May 6.—The coroner's jury returned to-day a verdict holding the strikers responsible for the death of Peter Steinhoff, who died a few days ago as a result of wounds received during the Hecla battle at Louisville.

BECKER TRIAL BEGINS.

New York, May 6.—Indications that District Attorney Whitman intends to go fully into the graft phase of the Charles Becker case were evident to-day when the former police lieutenant was placed on trial for the second time for the murder of the gambler, Rosenthal.

PARTITION NEVER TO BE ULSTER SOLUTION

County Men Would Rather Have Home Rule Than Be Cut Apart

CARSON IS CALLED UPON TO BE TRUE TO PLEDGE

Enthusiasm Seems Lost for Drilling Now Novelty Has Worn Off

BY GEORGE H. MAITLAND
Special Correspondent of Victoria Times in Ulster
(Registered under Copyright Act.)

Belfast, May 6.—The partition of Ulster gains no popularity as a solution of the Home Rule problem. Donegal Unionists say "Belfast and the rest of Ulster have pledged themselves to stand by us. They induced us to drill and to incur the enmity of our Catholic neighbors. Sir Edward Carson pledged himself to support us to the end and he dare not deliver us to Dublin." At Armagh a leading Unionist told me exactly the same thing. "Our country would remain with Ulster," he said, "but we seven thousand Armagh volunteers are not going to desert Fermanagh's three thousand, who would be left to the mercy of the Dublin parliament. Then there is Tyrone, which they talk of separating from Ulster. Yet Tyrone has a better volunteer organization than any other county. Personally," he added, "I would prefer even Home Rule to partition, which involves the abandonment of comrades-in-arms." In Fermanagh, Donegal and Tyrone.

Cavan and Monaghan, however, would readily be ceded to the Ulsterites. A prominent Nationalist expressed equal distaste to partition. "We Catholics in Armagh," he said, "have the same objection to being discriminated against in the settlement as have the Protestant minority in Donegal. We are opposed unanimously to further concessions."

With the parties thus at an impasse, Ulster drill is slackening slightly. Men are drilling only two nights a week in Armagh, the excuse being that they are now fairly efficient. Nationalists, on the other hand, continue an aggressive organization of volunteers in Armagh, where three hundred Protestants have been drilling. They are now to have Irish volunteers. Newry has already organized, but, despite this activity Armagh presents the unusual spectacle of an Ulster town where the parties, less, I am told, than before drilling commenced.

PORTLAND STRIKE ENDED.

Portland, Ore., May 6.—The longshoremen's strike, growing out of the demands for recognition and higher pay by the checkers' union, came to an end to-day. The strikers withdrew their pickets and went back to work immediately upon the announcement of a settlement.

Victoria Liberal Association

A meeting of the Liberal Association will be held in the LIBERAL ROOMS, COR. MORANT ST.,

TO-NIGHT

at 8 o'clock sharp. The meeting will be addressed by H. C. Brewster, who will give an account of his trip through Northern British Columbia, and James McGeorge, of Edmonton, who will speak on Organization. All Liberals are cordially invited to be present at this meeting.

AUSTRALIA KNOWS HOW SHE STANDS ON NAVAL DEFENCE FOR PACIFIC

Millen Says They Need Their Ships at Home for Protection of Pacific Shores and Enumerates Admiralty's Shortcomings in Naval Bargain of 1909

HAYTI GETS ORDER FROM BRITAIN TO PAY \$62,000 TO-DAY

Port au Prince, Hayti, May 6.—The British diplomatic representative at Port au Prince to-day delivered an ultimatum to the Haytian government demanding the immediate payment of an indemnity of \$62,000 to a British subject in compensation for the destruction by fire of his sawmill during the Leconte revolution. The ultimatum expires at six o'clock this evening. The British demand is supported by the presence here of the British cruiser Suffolk. The payment of the sum of money had previously been ordered by a court of arbitration. Immediately after the presentation of the British demand the members of the chamber of deputies and the senate met in joint session. The deliberations were marked by great excitement. Senator Carvin bitterly reproached the cabinet for not being able to meet the situation. There are no funds in hand with which to make the payment demanded. After a futile discussion, congress decided to go into separate session in order to permit the deputies and the senators to discuss the matter independently. Congress later authorized the government to treat with the British diplomatic representative in the matter of the demand and to open a credit for the payment of that amount.

HEAVY RAINS OVER PRAIRIES BENEFIT WHEAT NOW SEEDING

Winnipeg, Man., May 6.—Heavy rains fell over most of Manitoba and Saskatchewan yesterday and will be of immense benefit to spring wheat, seeding of which is in the main completed. Precipitation amounted to over one inch at Kam-sack, Yorkton, Moosejaw and Qu'Appelle, in Saskatchewan and Minnedosa in Manitoba. Last night it turned cold again, a slight frost being general and the low point at Vegreville, Alberta, with ten degrees, but frosts at this stage can do no damage. Much of the precipitation in Northern Manitoba and Saskatchewan was in the form of snow, several inches deep. This will effectively check seeding operations for some time, but at the Winnipeg grain exchange the feeling is that it insures a fine start for at least seventy-five per cent. of the spring wheat crop already seeded.

BEAN-PACKER FOUND IN DYING CONDITION

J. D. Galehouse Shot in Head Office Where Signs of Robbery Are Apparent.

San Francisco, May 6.—J. D. Galehouse, proprietor of a bean packing establishment, was found to-day in a dying condition in his workshop by his stenographer. There was great disorder in the room and evidence which the police believe points strongly to robbery and attempted murder. He was shot in the head.

Galehouse's clothes were partly torn from his body, furniture had been upset, a piece of his watch-chain and a shirt-stud from which a stone had been removed were found on the floor, and there were marks on the man's neck and head which emergency hospital physicians said could not have been sustained in a fall. A revolver was under Galehouse's body.

Galehouse came here two months ago from Seattle, where he had carried on a similar business to that which he opened here. His friends say his business was in good condition.

PUBLIC BEQUESTS ARE LEFT BY SIR WM. WHYTE

Winnipeg, May 6.—It is learned that among bequests of a public nature contained in the will of the late Sir Wm. Whyte, are substantial donations to Manitoba college, General hospital, Knox church and a personal bequest to Rev. Dr. Duval, who for many years was Sir William's minister.

EXPLOSIONS BURST COLUMBIAN APART

One Boat of Burning Ship Lost or Afloat on Atlantic Ocean

SURVIVORS DRIFTED ABOUT FORTY HOURS

Twenty-Seven Saved; Three Known to Have Died; Nineteen Not Found

RESCUED MEN ARE IN STATE OF EXHAUSTION

Boston, Mass., May 6.—The Cunard Line to-day received a report from Captain Miller of the Franconia regarding the rescue of a part of the crew of the Columbian which was burned at sea. The wireless telling of messages reporting a steamer on fire and of the search for the vessel, follows: "Sighted on starboard bow. The boat contained 13 men and a corps, laying awash in the bottom of the boat. "The survivors had used trousers leg from corpse on end of boat hook for distress signals. Survivors were in a state of extreme exhaustion and mental collapse. Some had been burned by fire. They had been adrift forty hours. Six were put under doctor's care in hospitals and others were given brandy and soup, bathed in hot water and put to bed. They immediately fell asleep. Little information was obtained from them. "The carpenter says the ship was the Columbian, sailing from Antwerp. He was asleep and heard the alarm of fire, was coming along the deck when an explosion occurred amidships under his feet which blew him overboard. He was picked up by a boat. "All agree the fire started at midnight Sunday from a cause unknown. In half an hour the whole ship forward and amidships was in flames with constant violent explosions. The wireless apparatus was wrecked. "We are carrying to Boston body of chief steward, who was frightfully injured by the explosion and died Tuesday. "After picking up the boat we made another detour, searching for other boats. Deeply regret could not find them, but many other steamers have been on the scene of the disaster and trust will rescue them. Have Marooned all ships to look out for two missing boats. "Sable Island, May 6.—The Manhattan, bound from New York for Antwerp had been near the scene of the burning of the Columbian for some hours and was known to be searching for boats containing members of the Columbian's crew. Her success was announced in the following message: "Manhattan picked up one boat of the Columbian, Captain and thirteen others. One engineer killed in explosion and one man drowned leaving ship. Manhattan still searching for other boat. "The other missing boat, for which the Manhattan and other steamers are searching contains the first and second officers and seventeen men."

COMMONS MAY ADJOURN FOR ONTARIO ELECTIONS

Ottawa, May 6.—The government contemplates adjourning parliament over June, in order that Conservative members may participate in the Ontario election. The business brought down within the last week is likely to keep parliament busy for two months more.

The resolution embodying the C. N. R. proposals will have its first reading on Monday and its second reading on Tuesday.

FALLS TWELVE HUNDRED FEET IS SLIGHTLY HURT

Rabat, Morocco, May 6.—Lieut. Saint Laigue was killed and Pioneer Ron-near received slight injuries when the French army aeroplanes in which they were flying to-day capsized and fell from a height of 1,200 feet.

The aviators were returning from a long scouting expedition over the country occupied by hostile Moors.

ATHENIAN FIRST THROUGH

Montreal, May 6.—Ice conditions in the lower gulf are reported from Flat Point as being the worst since the opening of navigation. The Athenian, which arrived this morning was the first steamer to get through the big field of ice off Cape Race.

ORESTE AT NEW YORK.

New York, May 6.—Michael Oreste, former president of Hayti, who fled during a revolution last January, arrived in New York to-day from Kingston, Jamaica. It is understood that he will soon go to Paris.

VILLA REPLACES TWO CHIHUAHUA OFFICIALS

Intrigue Stopped by Dispatch
of Governor Chao for
Active Service

El Paso, Tex., May 6.—General Manuel Chao has been removed as constitutionalist governor of Chihuahua by General Francisco Villa. The removal is supposed to be the result of an intrigue against Villa by Chao in an effort to have him replaced as general-in-chief of the army.

Trinidad Rodriguez has been named as governor of Chihuahua and General Chao has been ordered to report at the front beyond Torreon for active service in the field. Sylvester Terrazas, who has been secretary of state for Chihuahua and a close friend of Chao, was removed at the same time as his chief. Terrazas, who is not connected with the rich federal family of that name, and Chao, are regarded as being closely aligned with General Carranza, while their successors are friends of Villa. Constitutional representatives here deny that the removal of Chao indicates strained relations between Carranza and Villa, but say that on the contrary it indicates that the relations between them are so close that not even the personal friendship of Carranza for Chao could produce a break. Opponents of the constitutionalists point to the removal of Chao as a widening in the breach they insist exists between Carranza and Villa.

There is no better social education than a boy gets in a camp where all are dependent for their well-being on the willingness of each other to do his part.—Mr. J. L. Paton.

Lawyer and Trust Company

Not many years ago the lawyer was an active competitor of the Trust company. He regarded its activities along fiduciary lines as an invasion of his professional field.

To-day lawyers and trust companies co-operate rather than compete. The one-time rivals are not only friends but allies. Members of the legal profession, with but rare fossil exceptions, now recognize the inevitable progress of the corporate executor, trustee and administrator.

The trust company to handle the business end, and the lawyer to handle the legal end—that is the ideal combination for an estate. Your will should so provide for your estate.

HOUSE DIVIDES OVER MATTER FOR CENSURE

Railway Management Not Ap-
proved by Emmerson and
38 Other Members

Ottawa, May 6.—At 11.30 last night the house divided on a motion of censure of the government moved by Hon. H. R. Emmerson, relating to the management of the I. C. R. The motion was rejected on a vote of 69 to 39. Mr. Emmerson complained of an increase of freight rates, the employment of Americans as officials, changes in the rules, the alleged failure of the government to deal with the question of branch line feeders and the taking off of the Ocean Limited.

The acting minister of railways, in reply said that the increase in the rates had been really decided upon by the board of management appointed by the late government. Americans employed as officials, he said, were, in all cases, men who had lived in Canada for several years.

E. M. Macdonald characterized the conduct of the affairs of the I. C. R. by the present government as stupid. The increase in the rates had been the greatest blunder, he said, and had resulted in much destitution, principally in the coal towns of Nova Scotia, during the past winter.

Mr. Borden maintained the increase in rates was amply justified.

Hon. G. P. Graham said that the minister of railways was making the mistake of trying to run the I. C. R. with a club.

At the opening of the house, Hon. C. J. Doherty introduced a bill respecting British naturalization. The first part of the bill dealt with the definition of natural-born British subjects. It modified the existing law, that whereas a person born out of the realm whose father or grandfather was a British subject, was under the existing law a natural-born British subject, under the proposed legislation it was only required that the father of such a man should be a natural-born British subject. The bill, he said, was a reproduction of legislation introduced in the British parliament.

The second part of the bill dealt with naturalization. It prescribed the conditions of naturalization, which are the same as those prescribed by the parliament of the United Kingdom. The act passed in Great Britain is not intended to be effective within the self-governing Dominions unless adopted by the legislatures of those Dominions. Under the act passed by the British parliament, it is expressly provided that that part of it which had to do with naturalization should have no application to the self-governing Dominions unless adopted by their legislatures. It was further provided that subject to the adoption of any legislation by any Dominion the government of the Dominion shall have power to issue certificate of naturalization which shall have the same effect as certificates issued by the secretary of state under the legislature of the United Kingdom.

As regards the period of time the bill provided that it was sufficient that the last of the five years required for naturalization should be passed within the Dominion of Canada, provided the other four were passed within the British possessions.

On the orders of the day, W. E. Knowles said that it had been brought to his attention that the customs of details throughout Canada had been given orders not to give out customs figures from month to month, as has been the habit for years in the past.

Hon. Dr. Reid promised to make an investigation.

Hon. George P. Graham drew the attention of the house to the fact that there was an evident error in the figures of the estimates for the completion of the C. N. R. brought down by the premier yesterday.

Premier Borden said his attention had been called to the matter and there had been omitted through a clerical error, an amount of \$5,959,754, for the completion of the Montreal tunnel and terminals. The premier said that the statement of the capitalization of the various subsidiary companies and a number of other documents would be tabled soon.

Sir Wilfrid Laurier asked if the amounts owing to the various sub-contractors, which, according to the engineers' statement, showed some \$4,000,000, would be furnished.

The premier said it had not been thought advisable to lay the names of the various contractors before the house.

The private bills committee of the Commons yesterday granted the W. C. Edwards Lumber company the right to develop power at Rideau Falls and to sell the surplus, but it was made subject to provincial and municipal laws and to the hydro-electric commission.

DR. BAIRD MODERATOR CHOSEN AT WINNIPEG

Winnipeg, May 6.—Rev. Dr. Baird was yesterday chosen moderator for the Central Presbytery, and for the first time in the history of the presbytery a layman, Edward Brown, of Winnipeg, was chosen moderator of the Winnipeg assembly. The presbytery took the method of acknowledging the work Mr. Brown has done for the Presbyterian church.

AUSTRALIAN STATES ALL AT PANAMA EXPOSITION

Perth, Aus., May 6.—The government of Western Australia has decided to participate in the Panama-Pacific exposition at San Francisco. The representation of all the Australian states is now assured, the total amount appropriated for the purpose being \$300,000.

OCEAN FALLS COMPANY CONTRACT CONFIRMED

Huge Plant Will Go Under Con-
trol of Pacific Coast
Merger

Vancouver, May 6.—The contract entered into between the Western Canada Trust company as receiver for the debenture holders of the Ocean Falls company and Fleischacker Bros. and Johnston, of San Francisco, whereby the huge plant of the Ocean Falls company is to pass under the control of a merger of Pacific coast pulp and paper interests has been confirmed by Mr. Justice Morrison, of the supreme court.

Argument upon the application to confirm the contract was heard two weeks ago when strong opposition was offered by S. S. Taylor, K. C., on behalf of Lester W. David, owner of most of the common stock of the company and promoter and former president of the concern. Mr. David had cabled from England that he had enlisted the interest of a syndicate of wealthy Englishmen in the company who were prepared to take it over and pay off the debenture holders and creditors, and to safeguard the interests of the shareholders. The offer was not in proper form to be accepted by the court which ruled that the only proposal before the court which could be taken cognizance of was the proposal of Fleischacker and Johnston. This had previously been unanimously endorsed by the debenture holders at a meeting called in London and provided that the creditors shall be paid by the interests who are taking over the plant and assuming the liability toward the debenture holders.

The plant at Ocean Falls is one of the largest pulp plants on the coast, and is equipped with modern machinery for turning out 150 tons of dry pulp per day. A lumber mill has been operated for some time in connection with the company, but the largest aspect of the company's enterprise was conceded to be in the pulp industry, which is a profitable one with an insistent market.

Financial difficulties arose before the plant was completed, and the result that control passed to the debenture holders in England who had contributed \$3,000,000 toward the company's capital. Before the plant was installed creditors were clamoring, and steps taken to attack the debenture holders trust deed and control of the company. On the day that the huge plant was to start work on pulp production over a year ago, orders were cabled from England to close down the plant. For the past year the affairs of the company have been threshed out in the courts, while the plant lay idle.

CHILD ACCIDENTALLY KILLED BY SHOOTING

City Charter of Dawson Legalized at
Plebiscite by Four
to One.

Dawson, May 6.—Marjorie, aged six, was shot accidentally and killed instantly by her sister Dorothy, aged eight, at the home of their father, John Grant, Irving, a miner living near Dawson, on Sunday evening. The mother had been hunting ducks and had left the gun in a corner of the kitchen. Dorothy picked it up and it was discharged.

Oscar Johnson, a miner, was accidentally shot in the leg by the discharge of a rifle in the hands of another miner who did not know the gun was loaded.

The city charter, which Judge Craig decided was illegal when the city tried to collect taxes from Judge Dugas, of the Yukon bench, was legalized with amendments yesterday at a plebiscite by a vote of four to one. The new charter provided for the government of the city by the commissioner of the territory and four members of the Yukon council for North and South Dawson. It also authorizes the city to sell bonds for the purchase, installation and operation of civic utilities should the taxpayers at a later plebiscite endorse a specific proposal for a bond issue.

George Cunningham, a hotelman at Mayo, was accidentally shot through the hip by a ball from a twenty-two rifle while practising shooting. There was no doctor in the district, but the wound was not serious.

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and
Lustre With Sage Tea
and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.

Coal Comfort

You will be using less coal now that the warm weather is coming. But for those chilly evenings be sure you have by you some old Jingle Pot Lump Coal (\$7.50). For kitchen use you should order Nut Coal (\$6.50).

For Youthful Eyes

It is necessary to be very careful in the selection of correct lenses, otherwise there is the danger of injuring, rather than improving, the sight. We are particularly careful in examining the eyes of young people and selecting proper glasses. Our patrons are both satisfied with our work and charges.

ELY'S CREAM BALM OPENS CLOGGED NOSTRILS AND HEAD--CATARRH GOES

Instantly Clears Air Passages; You Breathe Freely, Nasty Discharges Stop, Head Colds and Dull Headache Vanish.

Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache will disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils,

penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous dripping into the throat, and raw dryness is distressing but truly needless.

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

NAVY LEAGUE FEARS GERMAN CONSPIRACY

Interception of Mail Causes Members to Take Action; Meeting Held

While at first several members of the Navy League, at its annual meeting last evening, were inclined to laugh at Captain Clive Phillips-Wolley's suggestion that a conspiracy on the part of the spies of the German Empire was responsible for the miscarriage of much mail matter between the Victoria and Esquimalt branches of the Navy League and the head office in London, the captain's earnestness in arguing his case impressed the members with a half belief in the theory. Accordingly suggestions were made that the correspondence in future be addressed under cover to the general or to the secretary's private address. One of the vice-presidents, H. L. Salmon, is leaving for London in a day or two and he will take up the matter with the secretary.

Victoria mail is not the only correspondence tampered with, according to Captain Phillips-Wolley. Argentina and Brazil and Australia and all outlying places complain that their mail does not reach London. Scotland Yard had been put on the case and it was the detectives who had scented the conspiracy, the speaker said. The fact that the Navy League was so powerful in Germany might have misled the emperor, the captain thought, into believing that the league in the British Empire was of equal significance, and he might have thought that the British navy was seriously crippled by this interference with the Navy League's mail.

The matter came before last night's meeting, when the retiring president, W. H. Langley, referred in his annual report to the miscarriage of correspondence on a certain matter.

The report in part follows: "Gentlemen: In presenting to you the annual report of the work of the branch for the past twelve months, your committee begs leave to say that although such period has not witnessed any advance on the part of Canada towards establishing a policy of naval defence in common with the rest of the self-governing dominions within the Empire, there has at the same time been manifested locally a renewed interest in matters pertaining to naval affairs, and in no other year of the league's history have they been brought more prominently to the front."

"The visit of H. M. S. New Zealand to these waters last August was an event fraught with the greatest importance. Another event of very great importance has been the establishment of a company of naval volunteers whose unbounded enthusiasm and efficiency have created a deep and favorable impression with all those who have been fortunate enough to have seen them at work. It is to be feared that unless the request for official recognition is shortly acceded to, the future existence of this important unit of coast defence will be seriously imperilled."

"On the 3rd of February last a mass meeting was held in the Royal Victoria theatre under the auspices of the Federated Navy League of British Columbia. The theatre was taxed to its utmost capacity, and speeches were listened to with the greatest attention. It was, we think, the most representative and enthusiastic gathering that has ever been assembled under the auspices of the league in this province."

The committee was elected for the ensuing year as follows: The Lord Bishop of Columbia, Captain W. H. Langley, F. Neale, J. Herick McGregor, J. A. Hankey, A. S. Barton, W. Bakemon, H. L. Salmon, M. Cane, Geoffrey Booth, W. E. Howe, W. E. Oliver, R. P. Bishop, W. Roper and Dr. Home.

These members met after the meeting closed and elected W. E. Oliver president. E. T. Martin was returned as secretary-treasurer and F. Neale was re-elected auditor.

TEACHERS' TOURS

Homes for Overseas Educationists Being Established in London and Furnished by Canadians.

An address on the "hands-across-the-sea" movement was given in the high school auditorium last evening by Fred J. Ney, Winnipeg, who is in charge of the organization of the annual tours of Canadian teachers to the old land. Dr. E. B. Paul was in the chair and on the platform were Hon. H. E. Young, minister of education; Dr. Westbrook, president of the University of British Columbia, and Geo. Jay, chairman of the school board.

Mr. Ney described the work that is being done, and the arrangements by which it is made possible for Canadian teachers to spend six weeks in the United Kingdom and see much more than they could otherwise, and for a sum within \$225. He spoke of the home for overseas teachers now being established in London, and said that of the forty-nine rooms being furnished by teachers in different towns and cities there were seven left, and he suggested that the teachers here might help in this work.

SQUADRON IS FORMED.

Dr. Bapty to Be in Command of Island Squadron of B. C. Horse.

The formation of a squadron of the B. C. Horse on Vancouver Island under the command of Captain Walter Bapty, M. D., who was with the army medical corps in South Africa was announced by Colonel Roy yesterday. An independent company of infantry is also to be formed at Nanaimo with a view to developing ultimately an island infantry brigade. In connection with the B. C. Horse arrangements have been made for six drills a year in addition to the camp. Of the 50 applicants to join, a very large number are former service men.

WOULD STAMP OUT COMMERCIALIZED VICE

Miss Gordon Addresses Gathering of Presbyterian Ladies, and Asks for Support in Work

Some insight as to the nature of the work done by her was given those who attended the meeting addressed yesterday afternoon by Miss Gordon, superintendent of the social service work of the Presbyterian church, who spoke before a large gathering of women in St. Andrew's lecture hall on the general character of the cases which come under treatment.

It was but two months ago that she took supervision of the work in this province, and brief reference was made to the scope of her investigations here. During her visit to Victoria she had, she said, visited the police court for the purpose of hearing a case of importance in connection with the work of the organization with which she is connected. Although she had heard many such charges against procurers, she had never heard a case more ably or justly handled by a magistrate. She had also visited the W. C. T. U. home at the Willows, and this won her sincere commendation. In reply to a question about immoral conditions in Victoria, she stated that she had not gathered any definite particulars on the subject, and that her judgments were therefore necessarily based on hearsay.

Referring to the province at large, however, she stated that it was nearly the only province in the Dominion which permitted the existence of "red-light" districts.

"East of British Columbia," she said, "there is scarcely a 'red-light' district in Canada. In this province there are good many in existence that we know of, but we are going to break these up. People may say what they like, but no segregated district is really segregated, and the evil influence of such an element gradually spreads to all parts of a city. Medical inspection regulations are no more effective, despite the fact that some are in favor of this. Look at Germany as an example of the results of such precaution: 30,000 blind children! It is appalling! There is no such thing as an adequate method of medical inspection."

Miss Gordon went on to tell of the girls who are gathered in to the rescue homes under the department's care, of the difficulties which they have with many of the cases, and of the ultimate reward which is nearly always theirs in seeing the young women weaned from the old life and placed out in good positions. The Vancouver home, only opened last October, had already proved of good service, twenty-nine girls having been cared for during the past seven months. Her own work in the province up to the present had been largely of an educational nature, as she found the people were uninterested through their lack of knowledge of the conditions rather than through lack of sympathy.

"The Presbyterian church is out to fight commercialized vice throughout the land," she said in conclusion. "It is up to the people to back up the church in stamping out the traffic in women, the women who ought to be the mothers and homemakers of the land."

After the meeting Miss Gordon talked to a delegation of fifteen ladies representing the various Presbyterian churches in Victoria, when the need of a local worker was discussed, and a campaign decided on.

SAVED WIFE FROM DRINK

Winnipeg Man Saves His Wife Through Samaria Prescription.

How terrible the effects of the curse of drink when a woman is afflicted. Wives and daughters often save their husbands or fathers from the drink habit through giving tasteless Samaria to them in their tea, coffee or food. But this is the story of a young husband in Winnipeg who overcame all difficulties and saved his wife.

Winnipeg, March 18th. "The treatment of Samaria Prescription which I bought at Gordon Mitchell's Drug Store has saved my wife, who is still a young woman. It was only twelve months ago that she took to drink through trouble. I cannot thank you enough, for she never even thinks of it now, and if she goes near anyone who has had a drink, she always says how sick she feels. Do not use my name, as we are so well known."

Winnipeg.

Samaria Prescription stops that awful craving for drink, restores the shaking nerves, builds up the health and appetite and renders all alcoholic liquors distasteful, even nauseous. It is tasteless and odorless and can be given either with or without the patient's knowledge in tea, coffee or food.

If you know of any family needing Samaria Prescription, tell them about it. If you have a husband, father or friend who is becoming a drunkard, help him to save himself. Used regularly by hospitals and physicians. Has restored happiness to hundreds of homes.

Free trial package of Samaria with Booklet, giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to anyone mentioning this paper. Correspondence secretly confidential. Write to-day. The Samaria Remedy Company, Dept. 75, 142 Mutual Street, Toronto, Canada. Also for sale by Hall & Co. Drug Store, 702 Yates Street, Victoria.

If the whole 30,000,000 miles in the world capable of supporting a dense population were as well peopled as, say, Belgium, the earth would have about 20,000,000,000 inhabitants.

Angus Campbell & Co., Ltd., "The Fashion Centre" 1008-10 Government St.

New Arrival of Sport Coats

For Girls of 14, 16 and 18 Years

At \$9.75 and \$10.50

My, but they're a smart lot of Coats—real Novelty Coats—in the fashionable honeycomb checks, black and white checks, grey and white checks, basket weaves, the new plain colors, including Tango, combination colors, and one in scarlet with collar and cuffs in large black and white check. To the young student of style we say "see these coats to-day."

RIGHTS OF HINDUS.

To the Editor.—There is no doubt about India being a larger asset to the British capitalist than what Canada is. But what brotherly adjustment is there between the British stockholder in the East India company and the average Hindu in India? Just about as much as there was between the stockholder of the Hudson's Bay company and its Indian subjects. The whole thing has been a matter of exploitation of the masses for the benefit of the few, and brotherly love consigned to the religions of the future. Even the army and navy is exploited for the benefit of a certain class.

To have an ideal province I suppose would mean an aristocracy of the Carson type with plural votes, a middle class of English and Scotch with single votes and a Hindu laboring class with Chinese domestic servants without votes. Such no doubt would be brotherly adjustment, and it would be so very imperialistic and not priggish. Of what benefit is imperial citizenship if for economic reasons there must be restrictions or brotherly adjustment?

I suppose the Crofters were thinned out because it was good to have too many Scotch in one place.

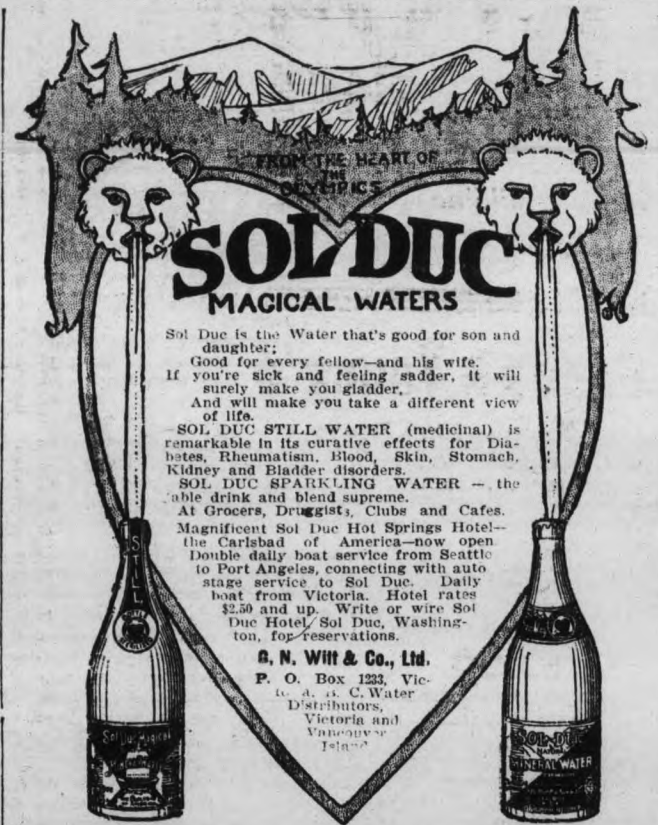

There doesn't seem to be much brotherly adjustment in the Ulster matter by the would-be imperialists at present. Why all this talk of Hindu rights when he has no rights in his own home, but such as political expediency for the time being has granted him?

A. R. SHERK.

INDIA AND CANADA.

To the Editor.—I should be glad to take exception through the columns of your paper to a remark made by Mr. Vallance in his recent letter on the Hindu question, viz., "That the Hindu comes from a nation which is a larger asset to the empire than Canada is."

I cannot see how anyone could make such a statement. In the first place, Canada is a far larger country than India and has more favorable climatic conditions, being practically immune from the droughts, etc., which have caused frequent famines in India, entailing a heavy expenditure of British money for their relief. Secondly, Canada is what India can never be, a fertile field for the emigration of Britain's surplus population. Again, the British government has for various purposes to maintain in India a military

force of 90,000 men against none in Canada. Although I always hope to see the Union Jack wave over India, I am quite aware that that entails great responsibilities. It has always been thought that Russia has a long desire to include India among her Asiatic possessions, as expressed in the will of Peter the Great, whilst the Peshwar incident of 1856 brought Britain and Russia almost to the verge of war. The British occupation of India is in my opinion justified upon humanitarian grounds, as under British rule oppression by the native princes has been prevented, taxation reduced, and, although much remains to be done, the condition of the native Indian is being improved as rapidly as possible.

As to the comparison between Canada and India as imperial assets, I would recall to Mr. Vallance's memory the terrible mutiny of 1857, with its subsequent heavy expenditure of blood and treasure. I quite grant that India is an excellent commercial customer of Great Britain, but so is Canada, which country also affords a substantial tariff preference in her markets. Without going far in to the immigration question, my views upon that question being well known, I would venture to suggest that Hindu immigration should

be restricted to those parts of the empire, for instance, the South Sea Islands, where the Hindu would not become as he does here along with other Asiatics, an unfair competitor with the white race.

J. LOWTHER.
P.S.—A reference to Mr. Justice Murphy's patriotic speech is desirable: "White and dark could not commingle save with the direst results. The hybrid product was always inferior. In fact, history taught that such a race could not exist."
Victoria, May 5, 1914.

INSPECTOR OF MUNICIPALITIES.

Is there nobody in this province competent to fill the position of inspector of municipalities under the act passed by the legislature last session? The government apparently thinks there is none, for it has selected a gentleman from Saskatchewan for the post. We flatly dissent from this view, because we believe it to be entirely erroneous. We never have had any difficulty in filling other important public positions from our own population, and we are unable to understand why the same course cannot be pursued in the present instance.

We make this protest in no spirit of narrow provincialism and without implying the slightest reflection upon the gentleman whose appointment has just been announced. We realize, also, that there are times when it is desirable, even necessary, to cross the provincial boundaries for technical men, such, for instance, as Chief Forester MacMillan but we submit that the circumstances underlying these appointments do not exist in regard to the inspectorship of municipalities.

In explaining the appointment Mr. Bowser says he "reached the conclusion that the position called for a man with expert auditing knowledge, one familiar with matters of finance, such as the flotation of loans, etc., and it was determined to get the services of a banker." There ought to be somebody with this knowledge in the province. Is there none in the finance or auditing departments of the provincial government? Does the Attorney-General seriously expect us to believe that our civil service contains nobody with such qualifications?

But the inspector of municipalities should be informed on other matters than banking and the flotation of loans. He should have a knowledge of the municipal system of the province. This is something that cannot be learned in a month or many months. The Attorney-General himself has not grasped it, as the municipal act in some respects proves, and he has had special opportunities for doing so for eight or ten years. If an inspector of municipalities is going to act as the guardian of municipal finance, he should have more than a superficial knowledge of the conditions prompting the financial operations of the fifty-two municipalities, the necessities of the various municipal services, and the hundred and one other elements which, though apparently detached, are actually vitally involved in our civic finance.

We are not offering this criticism in a sense of political partisanship, for when we say that there are men in this province competent to discharge the duties of municipal inspector we have in mind no political party. As a matter of fact, we expected that an appointment would be made from the ranks of those supporting the administration, and if the successful candidate were otherwise qualified we would not criticise the elevation of the Hon. A. E. McPhillips and Hon. W. A. MacDonald to the bench, although they were party appointments. On the contrary, the selection was commended, because these gentlemen are distinctively qualified for their important offices.

CANADA'S INTEREST IN C. N. R.

The Toronto Globe in the following article succinctly and clearly sets forth the position of the Dominion in connection with the demand upon Parliament by the Canadian Northern Railway company for a guarantee of bonds to the amount of forty-five million dollars:

"Clearly the people of Canada have a tremendous financial interest in the C. N. R. If it were to fail they would have to pay many millions of dollars yearly in interest on its bonds and redeem the bonds themselves at maturity. The people want to know in black and white what Sir William

Mackenzie and Sir Donald Mann have put into the C. N. R. It is asserted—and The Globe has never seen a denial of the assertion—that Mackenzie & Mann have not invested a dollar of their own money in the railway which they "own." They and their associates have acquired something over \$70,000,000 of the common stock, which carries control of the C. N. R., but there has been no suggestion made even by themselves that they paid anything for it. Most of the stock represents profits on the construction of the road. Mackenzie & Mann are primarily railway builders. As railway owners they let to themselves as railway contractors the bulk of the C. N. R. construction work and took C. N. R. stock in part payment. It has been openly stated that the profits on these contracts were not all taken out in common stock, but that some of them were taken out in the form of cash and diverted to other uses. If this were to be established from an investigation of the books of Mackenzie & Mann, the people would undoubtedly insist that all cash construction profits should be put back into the C. N. R. as a prerequisite to any further public bond guarantee."

SYSTEMS COMPARED.

There are people with high ideals who occasionally burst into speech or print to tell us that the party system of government is logically unsound and that the system of representation which usually exists alongside of it is unfair. No doubt to a certain extent the charge is well founded. But there is one thing, or perhaps there are two things, in favor of the party system. Immediately after an election we know, as a general rule, what kind of a government we are likely to have for a certain length of time, and thus from a business point of view we can trim our sails to suit the circumstances. In France they have not the party system as we have it in English-speaking countries, and they also have a system of proportional representation in the Chamber of Deputies. Weeks are required to determine the result of an election, and after the members finally are elected they are divided into several groups whose attitude towards the government in office may depend more upon intrigue between the leaders of the several factions than upon the principles upon which they were elected or the government represents. That is not a healthy state of affairs and is not likely to tend towards stability in political conditions. The New York Sun, which has been paying some attention to the conditions in France just now, concludes that there "parliamentarianism is running to seed," and thinks there is a possibility of another revolution. But if there is going to be an uprising against parliament, what will the revolutionists put in its place?

THE KAISER'S PLOT.

Aha! Somewhere between the offices of the local branch of the Navy league and the headquarters of the organization in London German spies are at work. Such was the sensational announcement seriously made at the annual meeting of the branch last night. Much correspondence has failed to reach its destination. This includes the various resolutions in favor of Mr. Borden's late contribution proposal. It also includes Capt. Phillips-Wolley's resolution honored with the joint approval of the Navy league and the Conservative convention held here some months ago. Instead of reaching the secretary of the parent body, it found its way to the cabinet of Admiral von Tirpitz. Yet why should the secret agents of the Kaiser have gone to so much trouble and risk when all they had to do was to send to Berlin copies of the local newspapers containing full reports of the meetings, resolutions and all? Probably they had no confidence in the press. They wanted to get hold of the documents containing the actual signatures of the officers of the league.

The great question is, where are the spies? We must find them. We cannot sit back while industrious metaphysical Germans with Kaiserlike moustaches are tampering with the Navy league correspondence. They even may be adding insult to injury and crime by sneering in polysyllables at the literary style of those resolutions! Are they operating in the Canadian postal service? If so, let M. Pelletier, Postmaster-General, get hold of them and Alsace-Lorraine will be avenged. Are they in the railway mail or Atlantic steamship mail services? If they are the suggested precaution of addressing the correspondence to other sources would be futile. The industrious spy or spies would soon discover the stratagem. We should remember we have to deal with very clever men. The German intelligence bureau would select only its ablest emissaries for such important work.

The Kaiser is a wily, wily man. His plan apparently is to disrupt the Navy league and thus destroy the foundation of Britain's sea power. Were it not for the league, of course, the people of the United Kingdom would not think of protecting themselves at sea. Their statesmen would forget all about national security until some fine morning the Kaiser at the head of an im-

mense army would be knocking at the door of Buckingham Palace peremptorily demanding breakfast. Who but the imaginative William would conceive of such an ingenious and effective way of removing his formidable rival from his path? Besides it is very economical. It is much cheaper to steal the correspondence passing between the local Navy league and the parent body than to build dreadnoughts. But the Kaiser need not crow. All is discovered, and we will beat him yet.

NAVAL VOLUNTEER MOVEMENT.

The officers of the Royal Canadian Naval Volunteers, a growing organization in this city, have been endeavoring to induce the federal government to authorize the movement and to make an appropriation covering the cost of training its members. The Minister of Marine and Fisheries informs the secretary of the Victoria branch that the government is considering the matter but that it is impossible to make any announcement at this stage, because it involves considerations affecting the Dominion as a whole, whatever that may mean.

In the House of Commons a few weeks ago the Hon. George Graham in calling the attention of the government to the progress made by the naval volunteer organization here and the necessity for encouraging it elicited a similar reply from the minister. It undoubtedly was entirely satisfactory to Mr. Pelletier, the Nationalist Postmaster-General, who listened for it with more than his customary interest.

Why this carefully-phrased diplomatic answer to a simple request for assistance for what the minister himself admitted during his visit here was a commendable movement? Why not appropriate a small sum to cover the cost of training the young men who with laudable national spirit have joined the organization? Colonel Sam Hughes seems to have no difficulty in extracting ten or twelve millions every year for militia purposes.

We do not need to go far for an answer to the queries. The government dare not countenance a movement which in the remotest sense may be considered in association with the idea of a Canadian naval organization. It dare not openly express disapproval of the naval volunteer movement, but it would damn it with neglect and faint praise. Over its head hangs a pledge with the Nationalists, three of whom sit at its council board as one of the conditions of that pledge. Enslaved by this base, unpatriotic consideration it fears to lend the slightest assistance to any movement for training on land which might be followed by a demand for training on ships. It was this consideration too which prompted it to dismantle with indecent haste the Niobe and Rainbow.

Sir Richard McBride is reported to have discussed the matter with the government on his recent visit to the capital. A verbal account of what he was told would be illuminating. We know he was unable to obtain any satisfaction. In view of the fact that he himself has repeatedly attacked the idea of a Canadian naval organization, has publicly declared that Canadians were averse to taking up naval training, it must have been something of a shock to the federal ministers to learn that he was friendly to the naval volunteer movement.

We trust the organization will continue its work as well as it can in the face of the government's cowardice on this subject. We know it is not a political body and cares nothing for political considerations, but we have good reason to believe that before long the enterprise of its organizers will be rewarded by ample assistance from another government which has faith in the country and the national spirit and courage of her sons.

"As to the allegations made by our local contemporary, their untruthfulness has been so often demonstrated that it is not worth while paying any attention to them," says the Colonist. Now, which one of our allegations has been demonstrated to be untrue? Was it the one about large commissions for the sale of the Songhees and Kitlano reserves? We got that from the public accounts and the court record. Was it the one about the "recognized practice" of illegal land staking? We have that from the Victoria Colonist. Was it the one about our credit being involved with that of the Canadian Northern? We have that from the same source. Was it the allegation regarding the excess of expenditure over revenue? We have that from the provincial estimates. Which was it, anyway?

A contemporary says that if the Canadian Northern Railway had \$40,000,000 cash to put up as security with the government it would not be seeking to borrow \$45,000,000. On the contrary, if Mackenzie & Mann had eighty million dollars in cash they still would ask the people of Canada to build their road for them. Trifles of this kind have not bothered them in the past. Even now they are not asked to pledge one dollar of their personal securities.

After all, the Attorney-General has the guidance of a striking precedent

In going outside the province for an inspector of municipalities. Did not his colleague, the Hon. Thomas Taylor, go to Seattle for an engineer to lay out Strathcona Park, to whom he contracted to pay \$15,000 a year for five years?

We do not believe there are any German spies tampering with the Navy league correspondence. They are all too busy in Ulster selling Mauser rifles to Sir Edward Carson's army.

CURBING UNEMPLOYMENT.

Chicago Tribune.

Employers of the country will in the near future have to begin to regulate their business so as to prevent as much as possible a total stoppage of industry at any one time, and more especially during the winter months. A number of industrial concerns in the United States are already doing so. The International Harvester company is one of these concerns. The Ford Motor company another. The Harvester concern avoids total stoppage of industry and wholesale unemployment among its workers by extending its market in foreign countries. The Ford company plans to have its slack season fall in the summer instead of in the winter, figuring that in the summer months a man may easily find work in the harvest fields to take him over his unemployment period.

The next step in curbing unemployment lies in effective municipal, state and even national labor exchanges—exchanges that will have the labor market of the nation at their fingers' ends, as it were, and will be able to place the men thrown out of employment in one industry in a temporary job elsewhere. The nation-wide investigation of unemployment which the federal commission on industrial relations has launched will do much toward placing the subject of involuntary idleness before the public in its proper light and significance.

BILLY PATERSON'S VOICE.

Toronto Star.

"You tell me the Hon. William Paterson is dead," said a Liberal stalwart. "You mean Billy Paterson—Billy Paterson of the big voice and the big heart. Here's a story about that voice. A new member came into the House of Commons. He had heard of the fame of Paterson's eloquence. 'He is going to speak to-day,' said an older member. 'If you want to hear him you must get a seat near him. An eloquent man, as you say, but his great drawback is that he has lost his voice.' A seat near Billy was found for the parliamentary freshman. Paterson began, as he usually did, in a low voice. The voice began to swell and heave like the sea. The freshman looked surprised. Then Paterson let out a 'Sir' with a roar that nearly brought the new member out of his seat. Paterson faced the speaker, then turned and faced his cheering comrades, pounded his own desk, pointed all the adjacent desks, and in the glow of passion glared at the new-comer as if he had been the author of the gerrymander and all the other Tory iniquities. When the speech was over the Liberal members fled out of the chamber, and great was the joy in Number Six, the old rallying place of the Liberals, over the stormy initiation of the new member."

CAMPAIGN CONTRIBUTIONS.

Brantford Expositor.

Money is needed in every parliamentary election for legitimate expenses, but all contributions should be made by private individuals and should be published. Extortion of any kind, whether from government contractors, hotel-keepers, or any other class of men, should be expected, for the very simple reason that funds will not, in most cases, be available for anything else.

TAXATION REFORM NEEDED.

Ottawa Citizen.

It is almost unanimously agreed that too many people are drifting into the cities; too few take up agriculture. Is it a sound economic policy to continue taxing the farmer and Canadian consumer in general, to encourage industrial growth in the cities? Can the country bear either the increasing burden of taxation, or sustain the steady diversion of labor from the land to the cities? Or is it time to take the next step forward?

DISTURBING THE PEACE.

From the Kansas City Star.

"I have a great hope," John Ruskin wrote Mrs. Carlyle when he was a young man, 'of disturbing the public peace in various directions'."

A splendid purpose, and one for which the occasion always exists. When conditions are rotten, what can possibly be worse than contentment? What public service can be better than to disturb the peace in various directions?

A PROPER RETORT.

Toronto Star.

Lord Emmott speaks of the excitement in the Canadian house of commons over the navy bill. We did not suppose a little thing like that would attract the notice of a visitor from the turbulent islands beyond the sea, where Larkin and the suffragettes and the Ulster covenanters threaten civil war, and the air is blue with the language of peers infuriated by Lloyd George.

CURRENT COMPLEXIONS.

San Francisco Star.

Every girl who powders believes that there is something wrong about a girl who paints.

One of Our Best Offerings in Women's House Dresses

On Sale To-Day and Thursday at \$1.90 and \$2.90

Regular Values to \$4.50 and \$5.75 Respectively

THIS is without a doubt one of our best offerings in Women's House Dresses. There are dresses in these two offerings that could not in the regular way of buying be sold for less than double the price, and some are even worth more. The large number of these Dresses we sell about this time every year enables us to buy in such huge quantities that beside securing special prices and discounts the manufacturers oftentimes make us some exceptionally good, tempting offers. This sale includes one of these special purchases and when you see the goods you will not need to be told that they are bargains worth while.

AT \$2.90 there's a very wide selection of pretty and useful styles, suitable for morning or afternoon wear. There are plain colors, stripes, checks and floral designs to choose from in an almost endless variety of colors. Some are almost plain while others are neatly trimmed with embroidered work and self materials in contrasting shades. All sizes.

AT \$1.90 there's a similar range of styles and colors to those in the \$2.90 offering. The chief difference being in the quality of materials. One special feature beside value is the fact that in this offering there are all sizes from a dress suitable for misses at 14 years to a woman's size taking 51 bust. Dresses suitable for either morning or afternoon wear, and some would make pretty picnic dresses.

Shipping News from Day to Day

SHIP WITH HINDUS DUE IN FOUR DAYS

Komagata Maru Now Out
From Shanghai 20 Days on
Way to Victoria

SHE TOOK ABOARD PASSENGERS IN JAPAN

Arrival of Mysterious Ship
From Across Pacific Awaited
With Interest

Ever since word was received here that the steamship Komagata Maru had left Shanghai with a large complement of Hindus on board for British Columbia, local immigration officials and shipping men as well as the heads of the Victoria Hindu colony, have discussed the matter very extensively and have tried to learn whether the report was correct or not. Queries have been sent out and every boat which has arrived recently from the Orient was expected to bring in some information on the matter. But nothing came. This morning, however, the Times received a copy of the Shanghai Mercury of April 16, which contained the following paragraph:

"The steamship Komagata Maru, with between 500 and 600 Indians on board, about 70 of whom are from Shanghai, left port to-day for British Columbia. She is expected to pick up 50 more Indians in Japan, who are also proceeding to Canada."

Due in About Four Days.
If the Komagata Maru is making an average speed of about 11 knots an hour she should now be but about four days' steaming from Victoria. The voyage from Shanghai for a vessel of the Komagata's class under favorable weather conditions ought not to take more than 24 days. After clearing from the Chinese port the steamship had but one port to call at. She was scheduled to put into some Japanese seaport for another contingent of natives of the Indian empire. It is thought most likely that Nagasaki was the port called at, for there she could load bunker coal for the trans-Pacific voyage as well as take on the additional passengers, which would eliminate a second call in Japan.

It begins to appear that within four days the local immigration officials will be face to face with one of the most unique and unprecedented problems which have ever confronted them. The number of Hindus reported to be on board is in the neighborhood of 600. It will be necessary for the immigration officials to look over the application of each man before judging from the manner in which the Komagata has been gathering the party together it is expected that a great many will be ordered deported. According to the Times' information 70 Hindus embarked at Shanghai and 50 others were picked up in Japan. It is not known whether the remainder embarked at Hongkong or whether the vessel originally set sail from Calcutta or Bombay and merely called in at these way ports for additions to her complement. Regulations Affect Both.

BURNABY SHOAL AID IS BEING IMPROVED

Larger Bell Being Placed on
New Platform; of Great
Aid to Mariners

General satisfaction is expressed among coasting navigators at the announcement made by the marine department to the effect that it will establish better aids to navigation over the treacherous Burnaby Shoal in Vancouver harbor. In the past a platform buoy has been maintained there, but on many occasions it has been torn adrift. The department will drive on a dozen cross-ties piles over the shoal and erect a platform about six feet above high water. A new 1,800-pound bell, electrically sounded, for service in foggy weather, and the usual red light will be established on the platform.

When the marine department first announced that it would establish an aid to navigation on Burnaby Shoal considerable objection was forthcoming from the Vancouver Shipmasters' association. However, it was decided that the passenger ships should come in for first consideration over towboats and a platform buoy was anchored there. Several collisions occurred with the boat and it was ripped from its position and set drifting about the harbor. It will take some very heavy bumps to dislodge the new aid, for there will be twelve piles driven about fifteen feet into the mud.

Helpful in Dense Fogs.
The Burnaby Shoal bell is of the greatest assistance in foggy weather to mariners operating in and out of Vancouver harbor. During the thick fog which visited the mainland port every year the navigation of the harbor is always a treacherous proposition. The big ferry boats formerly were held in port during thick weather. Last year during the worst mists not one boat was held up and the Burnaby Shoal bell buoy was partly responsible for this. The bell which has been maintained there up to the present time, while giving invaluable assistance to the mariner, has been found to be rather unsuitable owing to the fact that it has a continuous ring and cannot be heard at any great distance. The new bell will sound similar rings to the navigation of a ship and be audible for a radius of one mile.

It is expected that the new aid will be ready for operation by Sunday next. The Burnaby Shoal bell is of the greatest assistance in foggy weather to mariners operating in and out of Vancouver harbor. S. S. QUEEN CITY ENTERS GULF TRADE TO-MORROW

Late yesterday the deal for the purchase of the steamer Joan by the Terminal Navigation Co. of Vancouver, was completed, and to-morrow morning the former C. P. R. steamer will proceed from here to the mainland port to undergo extensive alterations before entering service to Howe Sound and Bowen Island. The name of the vessel will probably be changed and

S. S. QUEEN CITY.

The improvements planned on the ship will alter her so much that she will no longer be recognizable as the Joan. The City of Nanaimo, the sister ship to the Joan, was purchased by the same company a couple of years ago. After being overhauled the steamer Queen City will start out in the Gulf Islands' service to-morrow morning. She will maintain the schedule until a larger vessel is secured. The Queen City was laid up for some time and is being pressed into service following the disposal of the Joan. She is in fine shape for a hard season's work.

BOSTON IS TO HAVE SERVICE TO COAST

Fleet of Steamships Coming
Via Canal; Will Call at
Hawaiian Islands

San Francisco, May 6.—Direct service for the handling of freight between Boston, the Pacific coast and the Hawaiian Islands is assured, according to a report made by the directors of the Massachusetts port. The inauguration of the service, which provides for monthly sailings via the Panama canal, will be the result of negotiations begun over a year ago. The primary object of the establishment of the new line is to give Boston shippers the advantage of direct shipments to the Pacific coast and the islands without the double handling of freight, which has heretofore been necessary. The name of the new line has not yet been announced.

Two large freighters have been chartered by the United States government for coal from Norfolk and San Diego. One of the charters is the British steamer Queen Helena, 2,755 net tons. She is fixed for May loading and received a rate of \$3.42. The name of the other vessel has not been announced, but she is a vessel of 6,000 tons deadweight and is taken also for May loading. Her rate is \$3.60.

With the announcement recently that westbound freight from the Atlantic would be sent to this coast via the Straits of Magellan, the American Hawaiian S. S. Co. has issued the following schedule for this route, with steamings from New York:
The Kentuckian, May 12; Texan, May 27; Minnesotan, June 8; Dakotan, June 20, and the Iowan, July 3.
These steamers will proceed to sea when loaded, however, irrespective of the approximate sailing dates announced. It is necessary, the office says, to give up the fixed schedule temporarily, such as it was possible to ensure by the Tehuantepec route by always having a ship there, ready to receive cargo trans-shipped from Puerto Mexico. Shippers, however, are assured that by sending freight right along it will be dispatched whenever a ship is full. The voyage by Magellan is no trans-shipment and the company guarantees minimum breakage.

ILL AT PRINCE RUPERT.

Eddie Cridge, the well-known pursuer of the G. T. P. steamer Prince George, was left in the hospital at Prince Rupert on the last call there of the steamer. He is suffering from a severe attack of bronchitis.

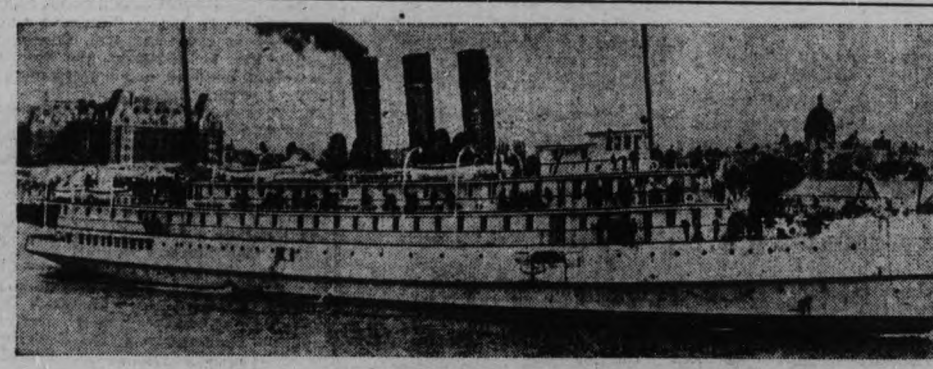

SEVILLE TAKING PLACE OF CROWN OF ARRAGON

Harold Cove, agent for the Harrison line, has been advised that the steamship Crown of Seville has been substituted for the Crown of Arragon for June loading in the United Kingdom. She is one of the large carriers of the fleet and is being sent in place of the Arragon through the fact that the movement of canned goods from San Francisco will be very heavy when she is ready to sail homeward from this coast.

GEORGE HAS FOGGY TRIP.

After a foggy southbound trip from Prince Rupert the G. T. P. steamer Prince George, Capt. Donald, arrived in port early this morning. She brought south a fair list of passengers and considerable cargo. The three-stackers sails for the north at 10 o'clock to-morrow morning.

READY FOR SERVICE AFTER LENGTHY OVERHAUL

S. S. PRINCESS VICTORIA

This afternoon the C. P. R. steamer Princess Charlotte was withdrawn from the triangular service and proceeded to Esquimalt after her Seattle passengers had disembarked and went into dry-dock. She is to be thoroughly cleaned and overhauled, but she will be out of service less than one week. To-morrow afternoon the famous steamer Princess Victoria will be piloted out of the harbor by Capt. Hickey on her first trip since she was laid up two months ago for the most extensive overhaul she has ever had. The vessel is in first-class shape and will run from here to Vancouver, down to Seattle and back to Victoria for the summer, fall and winter months. She is the original flyer of the C. P. R. fleet.

CELESTIAL PIRATES RAID ANOTHER SHIP

Board Vessel as Passengers
Then Shoot Two of Crew
and Take \$30,000

Chinese pirates seem to have secured a new lease of life and are now carrying on their nefarious work in Oriental waters in an alarming manner. Large steamships are being boarded by the fearless desperadoes of the sea and they are making large hauls. A short time ago the Times published an account of the holding up of the Norwegian steamer Chidder a few miles from Hongkong. Then followed brief telegraphic advices of the raid made on the British vessel Shingtai, which carried a Chinese crew and officers. A few days ago another cablegram told of piratical disaster to the British steamship Jason.

The Empress of Asia, which was in port on Sunday from Hongkong, brought advices of the raid on the Shingtai. It took place on the night of March 31 while the Shingtai was en route from Hongkong to Wuchow. She is a vessel of 1,000 tons and is owned by the Tsai Wo Steamship Co. She left Hongkong at seven on the night named with seventeen passengers, but when three hours out, when near Keemun, at the end of Lin Island, the passengers turned out to be pirates and commenced work.

The steamer carried a guard of four soldiers supplied by the Canton government who were supposed to search all passengers as they came aboard at Hongkong. No weapons were then discovered and the inference is that the guards must have made a poor search or that the raiders had the weapons tied to their legs.

Killed Two of Crew.
The commander was the first officer on board to become suspicious of his passengers and he ordered the guards to search a little group, but as soon as the soldiers commenced to search the first man, another of the gang drew a revolver, killed one of the guards and wounded another. The pirates then dashed for the engine-room, tied up the engineer and stopped the engines, after which they captured the commander, secured his keys and rifled the safe. The storekeeper intervened and was promptly killed.

The Chinese skipper, hearing the row, disguised himself in coolie dress and hid himself, and the pirates met with no further resistance after the soldier and storekeeper had been killed. They got away in boats with \$30,000 in silver and it is believed they are the men who pirated the Tai On and other steamers on the Macao-Kwangchow run.

The Shingtai's engines were not damaged and she proceeded to Macao. The affair shows that piracy is a very real peril on the Chinese coast and there seems to have been an epidemic of the crime during the last year.

NIPPON LINER DOCKING FROM ORIENT TO-MORROW

About 9 o'clock to-morrow morning the Nippon Yusen Kaisha liner Awa Maru, Capt. Tominga, is expected to berth at the outer docks from the Orient. She was spoken by wireless this morning at 8.30 o'clock and was 230 miles from Victoria. She is completing a fair run in from Yokohama and is bringing to this port one of the largest passenger lists to disembark for some time. There are over 120 second and third-class travellers on board for Victoria. She will discharge 165 tons of freight here before proceeding to Seattle.

PUEBLA LEAVES FRISCO

Advices received by local agents of the Pacific Coast Steamship company state that the City of Puebla, Capt. Hannah, left San Francisco yesterday afternoon at 4 o'clock for Victoria, on her first trip in several months. She has 113 tons of cargo for this port and it is understood that she has a good passenger list.

The steamship Umatilla, Capt. Reilly, will not sail for the Golden Gate until Friday morning at 8 o'clock. She is the first vessel to take the new southbound sailing. Formerly the vessels sailed for the Bay City on Wednesdays.

NANOSE OUT ON WAYS.

This morning the C. P. R. tow boat Nanose was hauled out on the slip at Yarrow's yards at Esquimalt for cleaning and painting.

Lowest..... 57
Average..... 62
Bright sunshine, 12 hours 54 minutes
General state of weather, fine.

GREENROOM NOTES

SCOTT PICTURES.

In this day and time when the news of the world becomes ancient history before it hardly has time to cool off, heroic methods must be resorted to in order to attract attention. This is where the infinite art of the all-conquering cinematograph proves its supremacy. The atmospheric waves can be utilized to convey the intelligence, but it remains for the never failing lens of the camera to depict the actual scenes. On February 11, 1913, the whole world was startled by the news that Captain Scott, R. N., and his noble little band of Antarctic explorers had perished on their triumphant return when within 11 miles of success. The entire world mourned the loss of one of its splendid heroes, and since that day interest has been kept alive through different channels because of the unusual circumstances surrounding the discovery. Now comes the cinematograph with its voluminous pictorial record of all the episodes.

The complete and vivid animated record secured by Herbert G. Ponting, F. R. G. S., official cinematograph expert of Captain Scott's expedition, will be shown at the Royal Victoria theatre beginning Thursday, May 7, for ten days with daily matinees and evening performances.

"WITHIN THE LAW."

With an unusually large advance demand for seats presaging exceptional interest in her engagement, Margaret Illington, who made in Chicago a phenomenally popular run of three months during which the playing of a matinee every day was necessary to accommodate the record-breaking attendance, appears at the Royal Victoria theatre this evening in "Within the Law," Bayard Veller's widely heralded absorbing play of tremendous human interest. The world-wide vogue of this play is due to its truth and timeliness, its humanity and humor.

Mary Turner, Miss Illington's role, is an attractive young woman who has served a prison sentence for a crime of which she is innocent. Upon being freed she finds that the penitentiary taint cannot be shaken off, and she is compelled to take to the pavements, or develop a new mode of life along criminal lines, and just out of reach of the officers of the law. This latter course she adopts, acquiring admiration by remaining herself always within the law, using its facilities and technicalities to guard her against police interference.

Miss Illington, whose interpretation is a noteworthy effort, is surrounded by an exceptional excellent supporting company.

Cut This Out

Famous Specialist's Recipe for Catarrhal Deafness and Head Noises.

If you know someone who is troubled with head noises, or catarrhal deafness, cut out this formula and hand to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. Recent experiments have proved conclusively that catarrhal deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize with the complaint, and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel all traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct, is given below in understandable form, so that anyone can treat themselves in their own home at little expense.

Secure from your druggist 1 oz. Parmit (Double Strength), about 75c. worth. Take this home, and add to it 1 pint of hot water and 4 oz. of moist or granulated sugar. Stir until dissolved. Take on tablespoonful four times a day.

The first dose promptly ends the most distressing head noises, headache, dizziness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat are other symptoms that show the presence of catarrhal poison, and which are quickly overcome by this efficacious treatment. Nearly ninety per cent. of all catarrhal troubles are directly caused by catarrh, therefore there are but few people whose hearing cannot be restored by this simple home treatment. Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this prescription a trial. There is nothing better.

IMPORTANT.—In ordering Parmit always specify that you want Double Strength; your druggist has it or he can get it for you; if not, send the to The International Laboratories, 74 St. Antoine St., Montreal, P. Q., who make a specialty of it.

PITHY PARAGRAPHS

When a rooster crowed early in the morning, Uncle Ben said to little Bob, "That's the kind of an alarm clock we have in the country, my boy, and we don't have to wind it up." Later in the morning Bobbie happened to see his uncle wringing the neck of a chicken for dinner. Hastening to his mother, the little boy exclaimed, "Something must be wrong with Uncle Ben's alarm clock, mamma, because he surely is winding it up now!"

He was a rural dean, and an enthusiast for the free and open church. When, therefore, in the course of a visitation, he at last discovered one church that was not securely bolted and barred against pious parishioners, he was delighted, says the Daily Citizen, He sought out the clerk, "Do you find," he asked, "that the people come here often for prayer and meditation?" The clerk smiled sorrowfully. "They did try that game on at first," he answered.

GRAY HAIR

"But I pretty soon bundled 'em out, I can tell 'ee."

Commenting on the career of the late Mr. W. H. C. Nation, one of the quaintest personalities who ever managed a theatre, the London Mail says: "It is said that a boy waiting for the gallery door to open at one of his theatres was arrested for loitering, the policeman not believing that anyone wanted to go in."

Judge Hanington, when leader of the opposition in the New Brunswick legislature—representing the County of Westmorland—was once delivering a vigorous address against some measure of the government, then led by Mr. Blair. "Oh, that my constituents in Westmorland could hear me now," exclaimed the opposition leader in violent tones. Mr. Blair motioned to an attendant. "Open the windows," he said.

A famous American once visited a menagerie, and pausing before a particularly ugly monkey exclaimed: "What a resemblance to—So-and-so." The words were scarcely spoken when

he turned, and saw standing at his side the very man whom he had complimented. "I beg your pardon!" said the gallant colonel. "I would not have made the remark had I known you were near me, and I am ready to make the most humble apology. But"—looking first at the man and then at the animal—"hang it if I can tell whether I ought to apologize to you or to the monkey!"

In a rural justice court in America the defendant was sentenced to thirty days in jail. He had known the judge from boyhood, and addressed him as follows: "Bill, old boy, you're a-gwine ter send me ter jail, air you?" "That's what," replied the judge. "Have you anything to say ag'in' it?" "Only this here, Bill; heaven help you when I git out."

Sepia Portraits.—Artistic to a degree at reasonable prices. The Skene Lowe studio, 654 Yates, corner Douglas.

The total area of the king's dominions is now 11,575,000 square miles, and in 1911 the population had reached the huge total of 47,283,000. This figure works out at 36.7 persons per square mile.

FINGER NAILS DROPPED OFF

Skin Beneath Lifeless. Fingers Painful. Sleepless Nights. Used Cuticura Soap and Cuticura Ointment. Complaint Gone.

70 Agricola St., Halifax, N. S.—"Some time ago my finger nails began to drop off, the result it was believed of lead poisoning. The nails themselves were brittle and dry, the skin beneath being lifeless looking. My fingers were excessively painful causing sleepless nights. I was treated for about three months and the nails grew again but away from the flesh of the fingers and then fell off again."

"SALUDA"

Being all pure tea leaves, you don't have to submit to the annoyance of dust and dirt floating in your tea cup and injurious to your health. Costs no more than common-place teas. Sealed lead packets only.—Never sold in bulk.

DEGREE OF D. D. FOR BISHOP OF COLUMBIA

Honor Conferred at Recent Convocation of Faculty of Divinity, Trinity College

The principal event at the convocation of the Faculty of Divinity of Trinity College, Toronto, which took place last week, was the conferring of the honorary degree of D. D. on the Right Rev. J. Charles Roper, Bishop of Columbia, and the Most Rev. Samuel Pritchard Matheson, Archbishop of Rupert's Land and Primate of All Canada.

"The ceremony," says the Toronto Globe of that date, "was marked by a solemnity and dignity seldom seen even on such an occasion. The Bishop of Columbia was presented by the Rev. S. C. Cayley, rector of St. Simon's and Rural Dean of Toronto, and the Archbishop of Rupert's Land by the Bishop of Algoma. The Bishop of Columbia, after a reminiscent discourse on his arrival in Canada, offered sound advice to the young men about to enter on active ministry. Taking an illustration from the game of football, he advised them to 'choose their centre wisely, keep that centre strong, and then cover all the ground they could.' That was the advice he got from a great footballer at Oxford, and it applied aptly to the Christian life."

The Bishop of Columbia was called to Victoria in 1912 from New York, where he held a professorship in the General Theological Seminary. Educated at Keble College, Oxford, he was ordained in 1882, and was curate at Hurstmonceux for the following two years. From 1884 to 1886 he was chaplain at Brasenose College, Oxford, in the latter year coming out to Canada and taking up the office at Trinity College, Toronto, of Keble professor of divinity. After three years lecturing there he was appointed as priest in charge of St. Thomas', Toronto, which he held from 1889 to 1897, going direct from there to the Theological Seminary in New York. As head of the Columbia diocese he has shown strength and tact, and his influence has been a powerful factor in cementing and building up in coherent manner the various elements in the large district in his control.

The bishop is still in the east.

STOMACH TROUBLE AND HEADACHE

Cured by MOTHER SEIGEL'S SYRUP

When the stomach is unable to do its work properly and in a natural way, it is bound to react harmfully on your whole system. If steps are not taken to remedy the evil, the every day duties of life soon become a burden. A disordered stomach is the sure forerunner of headache, biliousness, constipation, and countless other troubles. A great Scotch physician, Dr. Abernethy, said: "If there were no indigestion, we doctors would have little to do."

The experience of Madam Jos. H. Parent, of Biarthe P. O., Restigouche Co., N.B., confirms this. Writing on February 2nd, 1912, this lady says: "Six months ago I was sick from disordered stomach. The result was frequent and severe headaches which prostrated me. Sometimes the headache would continue all day, and be accompanied by sickness and a sensation of fullness. This was particularly the case after eating. After four months of this sort of life, I had lost my color and appeared quite anemic; and was, besides, very depressed. I tried several medicines recommended by my friends, but none of them brought me any relief, the pains after meals and the headaches continuing as before.

"Last August it occurred to me that possibly Mother Seigel's Syrup might be suitable for my complaint, and I made up my mind to try it. The result was better than I had dared to hope for. My relief was immediate and thorough. I took the Syrup daily after meals for two months, by which time my cure was complete; but my worst symptoms had disappeared in two weeks."

Mother Seigel's Syrup is a sure cure for stomach troubles and is made from the extracts of more than ten different roots, barks and herbs, which have a remarkable tonic effect on the organs of digestion—the stomach, liver and bowels—enabling them to do their work in a natural way.

Price, \$1.00. Trial size, 50 cents. A. J. White & Co., Ltd., Montreal.

SPECIFICATIONS OF NEW HOTEL RECEIVED

B. C. Electric Railway Will Erect Building at Deep Bay; Pleasant Surroundings

At the local office of the B. C. Electric railway were received this morning the plans and specifications of the new tea-room and projected hotel of the company at Deep Bay. Simultaneously clearing was commenced on the land this morning, and as soon as possible tenders will be invited for the construction of the place, which is expected to be quite ready by the closing days of June.

The first erection will be of a somewhat limited character, consisting of a large tea-room, with huge veranda all round the house (the front facing the blue waters of the bay), a bar-room, kitchen, confectionery counter, ladies' room, and four large bedrooms upstairs with bath accommodation. The frontage of the building will be about 55 feet along the waterfront, and will be of picturesque pagoda design that promises to be very attractive.

A building on a much larger scale will, however, be added next year, when the tea-room will be enlarged into a hotel with a frontage of well over a hundred feet, and containing twenty-three bedrooms for the convenience of week-enders who go to the delightful surroundings of Deep Bay.

The B. C. Electric railway has considerable acreage at this point, and a good portion of this will be cleared of brush this year, though the trees will be left standing, so that picturesque and shady walks may be laid out among the grounds surrounding the hotel.

It is predicted that as soon as the charms of that vicinity become known, Deep Bay will become a favorite rendezvous for Victorians who are desirous of getting out of the city for a few days, or of spending a picnic in sylvan surroundings.

The country around lends itself most readily to enjoyment of this nature, and the position of the new hotel alone, situated as it will be between the Deep Bay station and the waters of the Bay, will be sufficient alone to guarantee a large measure of popularity.

For the benefit of those who desire to wander further afield and picnic in the solitude of the woods or along the sea front, an unlimited supply of boiling water will be kept on hand at the tea room for the use of excursionists along the Interurban line.

HOW TO ENJOY GOOD MEALS

Without Suffering From Stomach Trouble.

It is a well-known fact among physicians and even among people that they dine too well, and later become the victims of stomach acidity. In a recent medical article, an eminent physician states that too much acid should never be permitted in the stomach, because it irritates the stomach walls, causing ulcers, and in time developing cancerous growth. The acidity is generally signalled by indigestion after taking a heavy meal, fruits or coffee, and the doctor believes that this is the real reason for most stomach complaints. In his own case, as well as among his patients, he found that ordinary Bismarck Magnesia quickly neutralized the acid and made it disappear, thus ending the digestive organs to properly perform their natural functions.

Although this is a simple and harmless remedy, the Medical Report tells of a lady who had suffered for years from what had been diagnosed as cancer of the stomach, and whom it completely cured in a few weeks' time. As Bismarck Magnesia is quite inexpensive and can be easily procured from any good druggist, we publish this extract from the doctor's account of his experience, for the benefit of readers who enjoy eating well without suffering from effects.

SHE LIKES THE ISLAND

Miss Margaret Illington Came Over on Night Boat in Order to Have Day Viewing Scenery.

Miss Margaret Illington, who is to take the part of Mary Turner in "Within the Law," to be produced this evening at the Royal Victoria Theatre, came over to Victoria on the night boat last evening for the express purpose of being able to spend a full day sight-seeing and motoring in and about the city.

On the occasion of her last visit here she was quite frankly impressed with the beauty of the scenery in the district, and she departed with the expressed intention of making some motor expeditions in the district on her next visit here. When she drove away this morning it was understood that she had thrown care to the winds, and would spend the day spinning along the country roads and drinking in the scenic beauties offered. She intended to vary the outing by including a long walk in the prettiest environment she could find.

Eugenics is as old as the hills; Moses preached it, and so did Confucius.—Dr. C. W. Saleeby.

No real greatness can long co-exist with deceit.—S. T. Coleridge.

INSPECTION OF SOOKE LAKE WORK SATISFIES

Council Members and Citizens Take Thorough Survey of Western Section of Line

The utmost satisfaction is expressed to-day by the mayor, the members of the council and those citizens who accompanied the party on an inspection of the Sooke Lake works yesterday, the excellent progress being made on all sections of the project being a matter of great gratification. The inspection made was the most painstaking and thorough that the council as a body has yet undertaken.

Starting from the intake works at the lake, which point was reached by motor, the party traveled over the seventeen miles of light railway which follows the pipe line to Cooper's Cove, and from there went to the Humpback reservoir, after seeing the process of manufacture of the concrete pipe which the Pacific Lock Joint Pipe company is to supply for the distance covered by the inspection tour. The laying of this pipe will commence within the next ten days and the preparations have been so carefully made that the work will go on steadily until there is laid twenty-seven odd miles of reinforced concrete pipe, ready for the flow of the water when the whole work is completed.

The water was found to be flowing over the dam at the intake at the rate of eight million gallons a day, and the level of the lake to have been raised twelve feet by that work. During the freshets in January, the water commissioner told the party there were ninety millions flowing over every twenty-four hours, which gives an idea of the abundant supply there is to be had.

The route of the pipe line has been largely blasted out of the face of the rock along the hillside, and as the trip over this section was made slowly, taking about four hours, the party had ample opportunity to examine every part of it, and saw what a job it had been. At the cove the making of the pipe was an interesting process. It is occupying the time of about sixty men and some extensions are being made so as to increase the output to twelve hundred feet daily. Of the two varieties being turned out, one is three inches and one-half thick and reinforced with steel mesh, while the other is an inch thicker and reinforced with bar steel. The latter is for the siphon lengths used where there are undulations in the line which are not deep enough to be crossed with a trestle.

For some time after their marriage Mr. and Mrs. Barrett lived in Richmond, but twenty-five years ago they left the old surroundings and migrated to British Columbia, where Mr. Barrett was among the first to recognize the splendid fruit-growing qualities of the climate, his garden a few miles out from Victoria being a sort of experimental station for all manner of agricultural products.

Among the surviving relatives are Mrs. J. A. Jones, of New York; Mrs. W. Debbage, of Montreal, both daughters; and Mrs. Cresce, of New York, a sister of Mrs. Barrett. Bishop Mountain was a near relative of Mrs. Barrett's, and was a frequent visitor at the home of her parents while she was a child.

GOLDEN WEDDING

Mr. and Mrs. T. F. Barrett Congratulated by Many Friends on Occasion of Anniversary

Golden wedding anniversaries are becoming more and more rare events in this day of late marriages, so that that celebrated yesterday by Mr. and Mrs. T. F. Barrett, at their pretty cottage on Marion street, was the more remarked by their numerous friends, who called in no small numbers to offer their congratulations to the happy pair who have weathered the storms of life together for the past fifty years.

Mr. Barrett, in honor of the occasion, wore the very coat he donned on the wedding day five decades ago, and among the children who assisted their parents in extending hospitality to the guests were Mrs. Fred Niven and Mrs. H. A. MacLean, two of the daughters, and the little grandsons, Masters Allan and Donald MacLean.

ret's father was a Cornishman, while his grandfather on his mother's side was with Brock at Queenston Heights.

Sergeant Major Jannery, who was among those who supported the dying Wolfe on the Plains of Abraham, was another fighting ancestor, while his uncles were among those who fought for the British flag at the time of the rebellion in Lower Canada, the very year of Mr. Barrett's birth.

For some time after their marriage Mr. and Mrs. Barrett lived in Richmond, but twenty-five years ago they left the old surroundings and migrated to British Columbia, where Mr. Barrett was among the first to recognize the splendid fruit-growing qualities of the climate, his garden a few miles out from Victoria being a sort of experimental station for all manner of agricultural products.

Among the surviving relatives are Mrs. J. A. Jones, of New York; Mrs. W. Debbage, of Montreal, both daughters; and Mrs. Cresce, of New York, a sister of Mrs. Barrett. Bishop Mountain was a near relative of Mrs. Barrett's, and was a frequent visitor at the home of her parents while she was a child.

ROBERT SHAW DECLARED DEAD.

Galliano Island Fisherman Owning Valuable Property Not Heard of in Twelve Years

An order permitting Mrs. Margaret Shaw, of Galliano Island, to presume her son Robert Shaw dead was made by Mr. Justice Clement in Supreme court chambers this morning. Robert Shaw lived at Retreat Cove, Galliano Island, and was a fisherman by occupation. In May 1902 he departed for Nanaimo one day and withdrew all the money he had on deposit there. He has never been heard of since and his mother was this morning granted permission to administer his estate, which comprises some valuable real estate. He possessed 150 acres on Galliano Island and a half interest in a 162-acre farm also on that island.

FOR WEAK LUNGS

abundant nourishment is as necessary as sunshine, rest and fresh air, and the medicinal oil found in Scott's Emulsion has proven its worth for forty years. It is pure, rich and non-alcoholic. At every drug store. Avoid substitutes.

He also owned a lot on Constance Cove. R. C. Shaw made the application for administration in behalf of Mrs. Shaw.

MOCK PARLIAMENT ENDS

Novel Budget Adopted With One Amendment; Graft Alleged and Denied.

The budget was brought down by Finance Minister Kennedy at last night's concluding session of the Law Students' mock parliament. The balance of \$19,175,000.15 which was anticipated was not believed to be possible by the opposition, but the budget was adopted by a straight party vote and the house adjourned until next year.

One of the big items in the budget was \$400,000 for the removal of Ogden Point breakwater to Fowl bay, where the government argued there was a more better harbor. It was pointed out that certain persons in the house owned real estate in the Fowl Bay district, but the clause was nevertheless adopted.

The budget as brought down provided \$10,000 for a commission to investigate the matter of prevailing women's fashions and by the unanimous vote of the opposition this was increased to \$15,000. Otherwise the budget was adopted as a whole. The opposition's arguments that the government's graft had not been deducted from the estimated receipts was met by the answer that the cabinet ministers' salaries had been increased so enormously that there would be no temptation to graft.

The estimates follow:
Estimated expenditure—Benches for respectable stout loafers, \$5,000; courses in voice culture for the opposition, clothes, coffee, beans, etc., \$5,000; a royal commission to investigate Hindu affairs, \$5,000; supply of extra clothing for aged and infirm women's homes, \$5,05; a royal commission to consider the split-shirt question, \$15,000; cost of breeding certain new fishes, \$1,000; cost of two (2) tons of shark spawn for Shawanigan lake and salt for same, 30 cents; cost of new mace, \$1,000; poker chips for militia on duty, \$500; salaries for cabinet ministers, \$1,300,000; government assistance to law students, \$100,000; railways and canals, \$10,000,000; supply of paper for House of Commons, \$500; removal of Ogden Point

The Hinton Electric Co., Ltd., in Liquidation, Under Supervision

TO-DAY IN CANADIAN HISTORY

One hundred years ago to-day, another chapter was added to the story of the varied fortunes of Fort Ontario or Oswego, at Oswego, on the New York side of Lake Ontario, when it was captured by an army of British and Canadian troops. Oswego was then an important base of supplies for the American army invading Canada, and the victory was an important one. Valuable naval stores fell into the hands of the British army, led by Sir Gordon Drummond and Sir James Yeo, the naval commander. The American works and such of the stores as could not be taken away were destroyed. The old fort commanding the entrance to the harbor of Oswego was built by the English in 1756. It was designed as a protection against the French, but it had no sooner been completed than Montcalm, the French governor of Canada, attacked it, and the fort, with 1,600 men, 120 cannon, fourteen mortars, two sloops and 200 boats and bateaux were surrendered to the Frenchman. The fort was burned, but was later rebuilt by the British, and was the last fortress to be surrendered by the English at the close of the American revolution. The British fleet, with 3,000 men, appeared before the fort on May 5, 1814. Of these, 1,750 were landed and attacked the fortification. The first assault was repelled, but on the following day the British again attacked and forced the defenders to surrender. Sir George Gordon Drummond, who led the combined military and naval force against Oswego, came to Canada in 1813 and was second in command under Sir George Prevost. He had previously served in this country from 1808 to 1811. He planned and carried out the capture of Fort Niagara and also planned the successful attack on Buffalo and Black Rock. In July, 1814, he was in command of the British army at Landy's Lane, one of the fiercest battles of the war, and later invested but failed to capture Fort Erie. In 1815 he was appointed governor-general of Canada, but soon resigned and returned to England.

FIRST THINGS

The first number of the New York Herald, then called the Morning Herald, was issued seventy-nine years ago to-day by James Gordon Bennett & Company, from a tiny publication office in the basement of 29 Wall street. Bennett, father of the present owner of the Herald, was a native of Scotland, and had had journalistic experience as reporter and editor on papers in New York, Albany, Charleston, Philadelphia and Washington before he launched the Herald with a capital of \$500. The Herald, like the Sun, which had been established less than two years before, was originally a one-cent paper, although both of these great journals are now among the very few metropolitan papers selling for more than a cent. The Herald entered a field where there were already seven large morning papers and eight smaller afternoon journals—quite enough, it would seem, for a city with a population of little more than a quarter of a million. The first number of the Herald was ten by fourteen inches, and it contained twelve short columns of reading matter and four columns of "ads." The following year the paper was enlarged and the price increased to two cents.

HUMAN PROCESSION

There is a humor famine in Germany. As a result, many circulation managers are tearing their hair because it is almost impossible to get readers for a humorous journal that is not humorous. The reason for this sad state of affairs is that most professional humorists are so temperamental that they find it impossible to be funny in jail. And most of the leading humorists of the Kaiser's country are behind the bars because they simply couldn't resist the desire to laugh at the Crown Prince, which is lese majeste. The eldest son and heir of the European war lord will celebrate his thirty-second birthday to-day, and it is expected that the few humorists who have managed to escape imprisonment will take advantage of the occasion to present a petition to the emperor in behalf of their caged colleagues, and begging the emperor to appoint an open season when the wits of the press may indulge their risibilities at the expense of the Kaiser's first-born. It isn't likely that anything will come of the movement, as it is stated on good authority that the Kaiser is unable to extract any humor from the actions of his son. So far as the general public is concerned, the humorists may enjoy free lodging at the expense of the government as long as Frederick William is on the throne. The Crown Prince may be depended upon to keep his future subjects adequately amused.

John Tinney McCutcheon, who has an army of admirers who are ready to take oath that he is America's greatest cartoonist, was born forty-four years ago to-day on a farm in Tippecanoe county, Indiana, and lived on a farm until he was six years of age. The greater part of his youth was spent in Lafayette, Ind., and he was a class-mate of George Ade at Purdue university. During his long career as a cartoonist for Chicago newspapers he has traveled all over the earth. He witnessed the battle of Manila from a dispatch boat, toured India, Burma, Siam, Cochin China, China, Korea and Japan, was with the Boer army during the South African war, and was in Central Africa during Col. Roosevelt's famous expedition.

Oscar W. Underwood, author of the new tariff bill, who was recently nominated for the United States senate in Alabama, arrived in the world by way of Louisville fifty-two years ago to-day. In his race for a senatorial term, Congressman Underwood was opposed by Congressman Richmond Pearson Hobson, the hero of the "bottling" incident in Santiago harbor. Mr. Underwood was a candidate for the Democratic presidential nomination at Baltimore, and if his tariff measure gives general satisfaction it is likely that he will go to the next Democratic national convention with the solid South behind him.

Rear-Admiral Robert Edwin Peary was born fifty-eight years ago to-day at Crosson, Pa. He studied civil engineering at Bowdoin, and at the age of twenty-five entered the navy as a civil engineer. His first service was in Nicaragua, but in 1886 he was dispatched to Greenland and began a series of Arctic explorations which ended only when he had achieved the goal of centuries. Admiral Peary has received medals from the world's geographical societies to make himself look like an animated jewelry store if he should ever wear all of them simultaneously.

WEALTH OF HAIR

Parisian Sage Makes Thin Lifeless Hair Soft and Abundant

Beautiful hair, fluffy, lustrous, abundant and free from dandruff, is the main delight—yet so many of the fair sex have streaked, thin and lifeless hair, and think there is no remedy. Beautiful hair is largely a matter of attention. Parisian Sage frequently applied and well rubbed into the scalp works wonders. Try it to-day, and you will be surprised with the result—not only will the hair become abundant, soft, fluffy, radiant with life, but really doubly beautiful.

Parisian Sage supplies hair and scalp needs. It surely removes dandruff with one application, stops itching head and cleanses the hair of all dirt and excessive oil.

All drug and toilet counters sell Parisian Sage in fifty-cent bottles. Look for the trade-mark—"The Girl with the Auburn Hair." Try at least one bottle from D. E. Campbell. He will refund the money if you are not satisfied.

MONEY

TO LOAN

turtle and was wrecked. Ribald laughter greeted the failure, government aid was withdrawn, and Prof. Langley, broke-hearted, was forced to discontinue his inventive work. He died in 1906, having lived to see the practical demonstration of the soundness of his theories by the Wright brothers.

A few years ago the Smithsonian Institution and the Aero Club of several cities and counties decided to set apart May 6 as Langley Day, the principal holiday of the "bird-men" and all interested in the progress of the science of aviation. The Smithsonian Institution, besides erecting a memorial tablet in Langley's honor, has issued Langley medals to be conferred on those who have aided in the progress of the new science of which Langley, Hiram Maxim, Otto Lilienthal and Octave Chanute were the fathers.

George V. became "by the grace of God of the United Kingdom of Great Britain and Ireland and of the British dominions beyond the seas, King, Defender of the Faith, Emperor of India," four years ago to-day, May 6, 1910, when Edward VII. died. The anniversary of the king's accession will be celebrated in London to-day with the customary salute of 41 guns in St. James' Park, the ringing of bells in all the Anglican churches, and the hoisting of flags over all the government buildings.

In the condition in which people live at present any amount of alcohol, however small, is excessive.—Professor Sims Woodhead.

Dr. Morse's Indian Root Pills

are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when over-indulgence in some favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe, like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They

FOR STUDENTS—YOUNG AND OLD

A COMPLETE ATLAS FOR TIMES READERS

The Times has received from the printers a consignment of the Canadian Home and Office Atlas of the World

One copy of which can be procured by any subscriber to the Times on presentation of the coupon printed below and payment of \$1.25. This Atlas sells elsewhere for over double that price and is procurable in Victoria only through the Times. This is cost price to the Times in large quantities, our object being to provide readers of the Times with a book that they need.

The Atlas contains a new series of maps compiled from Government surveys and exhibiting the latest results of geographical research. The book contains 126 pages and is divided in four sections, as follows:

First Section, pages 1 to 62—Maps of Canada, the British Empire and all parts of the world; 62 full pages of beautiful and accurate maps.
Second Section, pages 1 to 40—Population figures of all cities and towns of Canada, principal cities of the world and a descriptive gazetteer of the principal cities of the world.
Third Section, pages 1 to 8—The World in half-tone.
Fourth Section, pages 1 to 16—Panama and the Canal.

The Times offers it only to subscribers and readers who present this coupon at the Times office, where the book can be inspected. Sent by parcel post at same price.

No New Potatoes.—Many people are wondering this year why it is impossible to obtain new potatoes in Victoria so late in the season, and it is practically the first time that the city has been without the luxury in some form or another. It is owing, in fact, to the vigilance of the fruit inspector, whose eagle eye discovered the presence of the tubular moth among some of the ubiquitous vegetables sent up from California for importation, and the ban went forth immediately, with the result that provincial "spuds" of last year are still the mainstay of the dinner table.

TOO LATE TO CLASSIFY

HOUSES TO RENT—10 rooms, Margaret St., \$30; 6 rooms, Market St., \$15; 6 rooms, Mason St., \$15; 7 rooms, Cranberry road, \$25; 7 rooms, Belmont Ave., \$20; 4 rooms, Alpha St., \$12; 5 rooms, Hillside Ave., \$15; 6 rooms, Empress St., \$15; 7 rooms, Leith St., \$20; 7 rooms, Beachway Ave., \$35; 7 rooms, Seaview Ave., \$30; 6 rooms, Oak Bay Ave., \$25; 5 rooms, Bolingbroke road, \$15; 7 rooms, Empress St., \$15; 12 rooms, Fowl Bay road, \$40. DIED

BARTLETT—On May 4, 1914, at the residence, Craigflower road, John Bartlett, aged 75 years, born in England. Deceased, who was a member of the Campaigners' Association, is survived by a widow, three sons, Albert G., Frederick J. and Walter O. Bartlett, and one daughter, Miss Annie. The funeral will take place from the B. C. Funeral Chapel, 724 Broughton street, on Thursday, May 7, at 2.30 p. m. Interment in Ross Bay cemetery.

STRICT PROVISIONS GOVERN MILK SALES

New By-law Details Requirements for Conduct of Dairies and Import of Milk

The health committee's new milk by-law, which will come up for consideration in council within the next week or two, is much more strict than the present by-law, especially in regard to the manner in which milk shall be handled, the requirements for cleanliness about dairies and the provisions as to the bringing into the city of milk from outside. Instead of leaving the matter to the inspector, the by-law definitely and specifically sets forth what shall be done by vendors.

Milk, of course, includes cream, and a dairy is defined as any place where any vendor keeps or stores the liquid. Licenses will be issued every six months instead of every year, and for fee, which is to be fixed, and among the facts which have to be set out in the application for a license are the place of production or purchase of the milk, the number of cows kept, the place where stored, and other facts, and there has to be a certificate from the inspector under the "contagious diseases (animals) act. This will be considered by the council along with a report from the medical health officer. If one man or firm is carrying on business under different names, there must be a license for each name. Dairies must not be built on ground which is likely to convey contamination, must not be within twenty-five feet of a stable, manure pile or other objectionable place, and there must be no communication with any lavatory. Neither does nor cats may be kept about a dairy, and no poultry, pigeons or rabbits within fifty feet. There must be no smoking or chewing of tobacco inside.

There is to be required a concrete and cement or tile floor, and this material must be carried up four feet of the lower part of the walls. The walls are to be lime-washed every March and August, unless they are painted, and then they have to be re-painted every second year. In any case they have to be kept constantly clean. There must be two hundred square feet of floor space for every two hundred gallons of milk handled. Thorough ventilation is demanded and the most scrupulous attention in every detail of sanitation.

Cans are to be made so as to be easily cleaned and have to be kept thoroughly sterilized by steam or boiling water. All the machinery used about a dairy has to be so built that every part can be got at and cleaned. Delivery carts have to have the name and license number of the vendor upon them in a conspicuous place in letters of at least three inches in length and be kept clean.

Permits to get milk from outside the city in case of emergency must be obtained, which will meet the case of the milk brought from Seattle, much of which is said to come from affected herds. No milk can be brought in from outside the city except in sealed cans.

The advertisement, required by the milk act—where fluid is offered which does not comply with the standard, from which the butter fat has been removed or to which water has been added—must be made in both the daily papers, with full particulars of the nature and extent of the non-compliance with the standard, removal of butter fat, addition of water or other special treatment to which the milk has been subjected.

No milk can be sold from premises where there is contagious or infectious disease. The inspector has to make bacteriological and sedimentation tests from time to time, and no raw milk can be sold which contains over 750,000 bacteria to the cubic centimetre or pasteurized milk with more than 15,000. The penalty for any offence under the by-law is a fine of \$50, with distress or a month in jail in default of payment.

LOCAL NEWS

Held Annual Meeting.—The annual general meeting of the lady members of the Victoria Lawn Tennis club was held this morning at the club house, when several matters in connection with the house committee were discussed. Such matters as were brought up were disposed of.

In Aid of Building.—The performance of "Rumpelstiltskin" given last evening in aid of the St. Barnabas' church building fund, made a decided success, among the young people whose acting was particularly noteworthy being Miss Elsie Aldridge and Miss Morning Duffey. The others of the company were also most talented, and the entire entertainment won unstinted admiration, a large audience crowding the schoolroom to witness the performance, and the sale of tickets proving quite up to best expectations.

Attorney-General's Reply.—The reply sent by Hon. W. J. Dwyer, attorney-general, to the secretary of the Social Democratic party, in answer to the protest of the Victoria branch of that party against the sending of extra troops to Nanaimo for May day, was as follows: "I beg to acknowledge the receipt of your communication of 28th inst., protesting against the dispatch of militiamen to Nanaimo on May 1 by this department, and in reply I beg to state that I am in no way responsible for any of the militia that are at present in Nanaimo nor any that are being called out on May 1. This action has been taken entirely by the city council of Nanaimo without any reference to me, and I am not in a position to stop it, as they have the right to do this under the Dominion Militia act."

CONFERENCE FRIDAY ON RACING AT FAIR

Directors of B. C. Agricultural Association Will Seek to Convert City Council

As the directors of the B. C. Agricultural association look at the matter the question of fair or no fair this year will depend to a great extent on the result of the conference which is to be held between them and the members of the city council on Friday afternoon on the subject of horse-racing during that week.

Here as everywhere, the directors say, the success of the fair depends on the amount of patronage of the grandstand, and that, of course, in its turn depends on the racing attractions offered. They contend, and will so urge on the council, that without races they cannot make the fair a financial success, and that unless the city is prepared to meet a large deficit that would be bound to result it would be absurd to go on with the arrangements.

Last year there was a very good attendance on the stand, and the receipts from that source went a long way to make up the total taken in. It is not thought feasible to offer anything on the field that would bring the crowd to the stand except horse-racing.

There is a rumor current that if the city council insists that there must be no racing the directors of the association are likely to resign. No confirmation is obtainable of that, but it is well-known that the directors take the stand that racing must be permitted to make the fair a success, and that they are not willing to be associated with it if there is going to be a big deficit.

This year the Dominion fair is to be held in connection with the annual fair of the B. C. association here, and the exhibits are expected to be very largely increased. It is hoped that the attendance will be correspondingly larger than usual, but against that there is some fear that the financial stringency may affect it.

George Sangster, secretary of the association, is busy daily with the details of the arrangements. He looks forward to the prize-lists being off the presses in a few days, and he will be glad to send a copy to anyone who sends him a request for one.

MEETINGS

Cornish Association.—The Cornish association is to meet this evening at the A. O. U. W. hall at 8.

Strangers' Rest.—The third illustrated lecture by Wm. Ritchie will be given at the Strangers' Rest, Government street, to-night at 8 o'clock. All who wish to attend will be welcomed. The lantern views, which are exceptionally good, have been kindly loaned by Mr. Litchfield. They are the only ones of the kind in Canada.

Commercial Travelers.—Council No. 434 of United Commercial Travelers will hold their regular meeting in the Knights of Columbus hall May 8, at 8 o'clock.

Last of History Series.—Special interest will attach to the last of the Canadian history study series to be given under the auspices of the Women's Canadian club at 3.30 on Friday afternoon at the Y. W. C. A. rest-room, as Colonel McIlreath, himself one of the very first men to join the Northwest Mounted Police, will give an address on this very interesting subject. Members are asked to note the time and day, and a large attendance is hoped for.

Political Equality League.—The annual meeting of the Political Equality league will be held on Friday, May 8, at 8 p. m., at the Y. M. C. A. A report of the year's work will be given, and a discussion will take place on "Has the time arrived when the Political Equality league in this province should take up militant methods?"

Gypsy Dance Tonight.—The Gypsy dance, organized under the direction of Kenneth C. Bate, will take place this evening at Connaught hall, Mrs. Michael Hallward, owing to the illness of Mr. Bate, having kindly consented to take over the direction of affairs for the evening.

Campaigners to Attend.—The funeral of the late John Bartlett, whose death took place on Monday, will take place from the B. C. funeral parlors, Courtney street, at 2.30 p. m. to-morrow. All members of the British Campaigners' association are requested to attend, medals to be worn on lapel of coat.

OBITUARY RECORD

The death occurred last evening at St. Joseph's hospital of Mrs. W. P. Doyle. The remains have been removed to the Hanna-Thomson funeral parlors, where they will repose pending funeral arrangements.

ALEPPO WON CHESTER CUP.

Chester, England, May 6.—The Chester cup, a handicap of £2,550, 100 miles and a quarter, was won here today by the favorite, Mr. Fairlie's seven-year-old bay colt Aleppo, by Beppo—Charlie Reine, carrying 8 stone 4 lbs., and starting at 3 to 1. C. Burns' Anney, 7 stone, 100 to 6, was second, and Sir William Cook's Gravelotte, 7 stone 2 lbs., 100 to 6, third.

BILLIARD TEAM COMING

Vancouver, May 6.—Ye Olde English billiard team to play against Victoria at the capital Friday night will be the strongest that the mainland champions have yet "tabled," and on paper it looks like the strongest that has yet been selected to play out of the city.

The team is well balanced all round and there is very little difference in the playing ability of all five players.

The cueists who will represent the champions are: Inman, Park, Matthews, Jordan and McMillan.

It has not been definitely decided just how the team will line up and it is hardly likely that the men will be placed until just before the games start.

CONVENIENT—Burns coal, coke, or wood. Large feed doors make firing easy.

NEW YORK MARKET IS WITHOUT INCENTIVE GRANBY HOLDS PRICE ENQUIRY IN RAMBLER

Professionals Only Ones Interested in Prices of Wall Street Call Boards

(By F. W. Stevenson & Co.)
New York, May 6.—There was no impressive selling in what proved a languishing market, but prices held back and lost a little ground, reflecting continued realizing sales. There was no news of any important character and the list was controlled almost solely by professional traders, who as usual were bearishly inclined.
Reports to the effect that congress will adjourn on July 10. It is not expected that there will be any announcement regarding the proposed financing of Missouri Pacific notes before Friday at the earliest.

WINNIPEG WHEAT TRADING FAIRLY ACTIVE

Winnipeg, May 6.—Wheat prices were strong on the local market, opening prices being 1/2 to 1/4 higher. The strength was caused by apprehension regarding a balance of second operations through inclement weather in the Canadian west, and a fairly good export enquiry. Some few sales have been transacted for export and it is claimed prices are now on a good business basis. Trading was fairly active during the early hours, quietening later, waiting on the United States government report which will be issued to-morrow.

DEFERRED FUTURES ARE UNCHANGED AT CHICAGO

(By F. W. Stevenson & Co.)
Chicago, May 6.—Action in wheat was very much the same as yesterday for the deferred futures. The trade had a number of bullish influences, including the strength displayed in corn again, but the fine weather map encouraged active bear operations most of the session. The belief that May wheat is tightly held by strong interests has a tendency to hold short interests even in the new crop months in check. The cables were lower from Liverpool. Northwest receipts light. Minneapolis reduced stocks of wheat 400,000 bushels for three days. Messages claimed that Duluth was removing hedges in the Minneapolis market against cash sales over night. A special report to a La Salle street house said wheat crop of Kansas is threatened by growing too thick, which will give thin straw and poor head.

NEW YORK COTTON MARKET

(By F. W. Stevenson & Co.)
New York, May 6.—Cotton prices were steady, with a slight upward movement in the early hours, but they soon settled down to a quiet, uneventful trading. The market was well supplied with goods, and there was no special demand for any particular grade. The price of cotton was 1/2 to 1/4 higher than yesterday, and the market was generally well supplied with goods. The price of cotton was 1/2 to 1/4 higher than yesterday, and the market was generally well supplied with goods.

THREE APOSTLES OF PEACE

Dr. George W. Nasmyth Norman Angell Alfred Noyes.

In these stirring days when nation is arming against nation and even blood brothers are arrayed in hostile camps, these three men in their several ways are devoting their energies towards the goal of universal peace.

A UNIONIST CABINET.

Since it is on the cards that the general election may come within the next few months a little speculation upon the composition of the alternative government is not untimely, says the parliamentary correspondent of the Daily Graphic. A Unionist cabinet, says the writer, might be composed as follows:
Prime minister and lord privy seal, the Marquis of Lansdowne.
First lord of the treasury, Mr. Bonar Law.
Lord president of the council, Duke of Devonshire.
Chancellor of the exchequer, Mr. Austen Chamberlain.
Home office, Lord Robert Cecil.
Foreign affairs, Earl Curzon of Kedleston.
Colonial affairs, Earl Selborne.
War office, Mr. Arthur Lee.
India office, Viscount Milner.
First lord of the admiralty, Mr. Walter Long.
Secretary for Scotland, Sir George Younger, Bart.
President board of trade, Mr. C. E. Stuart-Wortley.
President local government board, Mr. H. W. Forster.
President board of agriculture, Marquis of Salisbury.
President board of education, Sir William Anson.
Chancellor of the duchy, Mr. E. G. Pretyman.
Minister for Ireland, Lord Edmund Talbot.
Postmaster-general, Mr. Hayes Fisher.
First commissioner of works, Earl of Crawford.
Attorney-general, Mr. F. E. Smith.
"Some of these speculations, the writer concludes, must be wide of the mark. My object is to indicate approximately how a Unionist government might be chosen if fortune favors the party at the poll in the near future."

OBREGON HOPES TO TAKE GUNBOAT OF FEDERALS

Douglas, Ariz., May 6.—A telegram from General Obregon, constitutionalist commander at Guaymas, received to-day by Jorge U. Orozco, declared that while manoeuvring near Mazatlan Sunday the federal gunboat Morelos ran hard aground on an uncharted island near Ures. The vessel, General Obregon said, was about 500 metres from the constitutionalist shore positions and about 600 metres from the federal entrenchments. General Obregon discovered the predicament of the vessel while reconnoitering and immediately ordered rifle and artillery fire directed at the vessel. The firing continued Monday night and Tuesday morning when the guns on board the vessel which could be brought to bear on the constitutionalist shore positions were silenced. General Obregon said he hoped to announce the taking of the vessel soon, although any boarding party approaching her in boats would be under the fire of the federal trenches.

Wondrous is the strength of cheerfulness; altogether past calculation its power of endurance.—Carlyle.

When we are told of negotiations and conversations with the prime minister or any other minister of the crown, I know well that, while we conduct those conversations in the prime minister's room, the man in the vestibule is either Mr. John Redmond or Mr. Joseph Devlin.—Sir Edward Carson.

ALPINE CLUB ISSUES SUMMER CAMP PLANS

Will Meet July 21 to August 11 in Upper Yoho Valley

With such preliminary suggestions of warm summer days as have been hinted during the past few weeks in long hours of sunshine and fair breezes the thoughts of the alpinist have strayed oftener and more often to the snowy hinterlands of the distant mountains of the interior. The announcement, therefore, by the Alpine club of Canada, of the date and place of the summer camp is most welcome to members of that ever-increasing organization, which has undoubtedly been one of the greatest factors in spreading broadcast throughout Europe and the unacquainted easterners a knowledge of the scenic beauties and mountain attractions of British Columbia.

Every year adds new enthusiasts to this out-of-doors-recreation club, which will this summer pitch its ninth annual camp in the Upper Yoho Valley in the main range of the Rocky Mountains of Canada, under the personal direction—it will be sincerely hoped by all who have attended former camps—of the energetic and popular director, A. O. Wheeler, whose picturesque and humor-loving personality has not been one of the least powerful factors in making the club the wonderful organization it is to-day.

Specific details of the camp, which is to be held from July 21 to August 11, this summer, and which will be remarkable for the number of splendid expeditions that can be made from it in all directions, are contained in the circular just recently issued by the secretary, S. H. Mitchell, from the Club House, Banff, Alberta, this giving also directions as to the amount and nature of clothing, boots, bedding, etc., to be taken by those joining the camp, charges for transportation of baggage, saddle-horses, etc., and particulars of the climbs and expeditions to be found in the neighborhood. Members going to the camp will leave the train at Field station on the C. P. R., where one of the most comfortable tourist hotels to be found on the continent will be available to make a start for the camp, eighteen miles distant. Arrangements will be made to convey those attending and their baggage, from Field to the end of the driving road at Takakkaw Falls, some ten miles up the valley, from which point members will find it necessary to walk to their ultimate destination. Another route is feasible, which, however, will necessitate a longer tramp, this being by way of Emerald Lake Chautauk, which may be reached by bus from Field, and will leave the camper twelve miles from the Yoho Valley camp.

Accommodation is being prepared for two hundred persons, and, judging by the record attendance at last summer's camp at Lake O'Hara, this will be taxed to its limit. It would be wise,

therefore, for those who intend joining the camp to make their applications at once so that they will stand among the fortunate in the order of registration. Once more emphasis is placed on the importance of intending graduating members being examined by a physician as to their physical fitness for the arduous climb they will be called upon to make before they can qualify as full-fledged members of the club.

The main camp will be pitched at an altitude of 6,700 feet in the Upper Yoho Valley, near timber line, while a subsidiary camp will be pitched close to the Yoho Glacier. In the neighborhood of these two points is to be found the climax of Alpine scenery in the main range of the Rocky Mountains, and a great variety of beautiful and magnificent views of forests, lakes, waterfalls, fair alpine meadows, ice-fields, rocks and towering peaks are to be the reward of the climber. Although any glacier-hung peak that fills the necessary qualification will be regarded this year as a graduating climb, the President, the summit of which attains an altitude of 10,287, will be the one most easily reached, and it is probable that the majority of the, as yet, unqualified aspirants will pass the necessary test in making this ascent.

Local branches of the club should be preparing their programmes for the evening's entertainment to be assigned them, as it has been customary for each section from which several members attend camp to provide a special evening. These events are eagerly looked forward to by those in camp, and form a memorable part of each year's season. This summer's annual meeting will comprise the business of the election of officers for the term 1914-15, and special interest will attach, on this account, to the campfire gathering on that night.

Over 15,000 acres of land in Ontario are under cultivation for the growth of tobacco, with a yield of over 20,000,000 pounds.

"MY BACK HAS NEVER TROUBLED ME

Since Taking GIN PILLS

Lyons Brook, N.S., Feb. 26th.

"You are perfectly free to use my name in any way to benefit GIN PILLS, for they deserve the highest praise. My back has never troubled me since taking GIN PILLS, and my wife feels much better after taking GIN PILLS for her back. She thinks GIN PILLS will make a complete cure."
